Goddards from Yateley – Cove – Farnborough

Hampshire – courtesy of The Yateley Society

The Background And Introduction[1]

This current investigation into the Goddards, who lived in the villages at the junction of the borders of the counties of Berkshire, Hampshire and Surrey, was initially started because in the research that the editor was undertaking into the Goddards of Northamptonshire and Leicestershire. Both he and other researchers had noticed a similarity and pattern in the use of the forenames of "Holland" and "Samuel" when used for Goddards of that area and also in the area 60 miles to the south, around the villages of Farnborough and Yateley. Because there was no obvious parents for a Holland Goddard who was a carpet weaver in Banbury Oxfordshire in the 17th century, the Goddard trees submitted to the Goddard Association of Europe with seemingly similar name combinations were investigated. However, no common links, apart from the similarity of names has been established – the characteristics of the Midland Goddards as educated tradesmen and entrepreneurs are significantly different to to those of the Yateley Goddards who are mostly staid, steady, general labourers, through to the middle of the 19th century.

Having done a significant amount of work on the more Southern Goddards the editor realised that he was repeating investigations that had already done by several earlier researchers, because none had realised that others were working on the same area of Goddard families. In consequence it is thought that by the publication of these PROVISIONAL trees and the associated notes it will help future researchers co-ordinate their efforts and to save time on their projects into Goddards in this vicinity. No attempt has been made to put this document into the form of the previously published Goddard Association Monographs. Additionally, it should be understood that the surface has only just been scratched with regard to any of these Goddard families in this latest research and only a very few of the available parishes in the area have been investigated for Goddards living there.

This series of trees is the combination of several attempts, over many years to track one family of Goddards from the Yateley – Cove – Farnborough area on the Hampshire/Berkshire/Surrey borders. Cove was a hamlet in the parish of Farnborough Hampshire. This family tree primarily combines the trees generated by David Goddard, Ernest Goddard, Herald Goddard, Ray Goddard, John Tankard and Iris Trunley. Not withstanding all this combined effort the tree contains major elements of GUESSWORK which have had to be used to glue many small sub-branches together, in the absence of collaborated facts. However, even if it is lacking accuracy in many areas, it has been thought worthwhile to produce this document to provide a basis for future research, if only to reduce much rework on areas already settled, provide pointers for further research and to reduce the need for multiple visits to the record offices for this area. Last, but not least, to provide a degree of mirth when a glaring error in this version of the tree is corrected by the efforts efforts of the next generation of researchers.

Those jumps in generations, where confirming documentation has not been found, should be treated as very suspect and given only a 60-70% confidence level that any, or all, of the facts as stated are true. In a few areas there is no consensus of agreement between the authors of the individual branches of the trees and as a consequence alternative versions of that branch have been given.

One recent major advantage for those researchers living remotely from the area has been the general availability of a partial transcript of the parish records of Yateley church. However, it soon becomes obvious that by the time there are any church records relating to the general population, in the late 17th century, the Goddards had been established in many of the villages of this area. Yateley is only ONE PARISH, with over 50 other parishes within easy walking distance of Yateley, (15Km -9.3miles), each of these parish records require to be searched to get a more accurate tree. So far as can be established, only about 10% of these records have been seen by the various Goddard researchers to date. The parish records of these relevant parishes have now been collected, but they are distributed over the three county record offices, Berkshire, Hampshire and Surrey, located in Reading, Winchester and Woking respectively. The distance between these parish records is now much more than in the days when the records were kept in the individual parish churches, but at least they are now preserved and viewable under bright warm conditions. To get an idea of the

1 Introduction map is courtesy of The Yateley Society, www.hants.org.uk/yateley

scale of the problem, the editor in three 4-5 hour sessions, (over 12 hours peering into a viewer), in the Hampshire Record Office, has only managed to collect the the details of the Goddards in the first 14 microfiche from a total of 76 from the records of the parish church of Farnborough – only 62 microfiche left to go in this parish and then those microfiche relating to the parish records of the the other 50+ parishes in the area, before we get on to the various manorial court records!

Below is the list[2] of parishes in a 15km (9.3 miles) radius around FARNBOROUGH - chosen as walking distance taking about 3 hours, or 1 hour on horseback.

Parish	County	Number of Goddards recorded in 1881 census	OS Code	Km from Farnborough

Total number of Goddards recorded in 1881 census for 15Km radius around Farnborough		**552**		

Although there are well over 800 people described in the attached trees and notes it is known that this is probably only 50-60% of the real number of Goddards who should be included. There are many others whose baptism, marriage, or burial record in a parish record cannot be attributed to any particular Goddard family group. These records are like pieces from that near impossible jig-saw puzzle of the photograph of the Brussels Sprouts, they are all individuals, but where do they each fit and how do they interact with each other?

2 www.parishfinder.co.uk

Yateley And District

This family tree is from the area centred on the village of church at Yateley, although, until the middle of the 19th century it was also the church for the adjacent villages of Cove and Hawley. The land in this area is poor, sandy and only generally suitable for growing barley, and to a lesser extent hops for the brewing industry. The meadow land bordering the the River Blackwater is liable to flooding and this is suitable only for hay production and summer grazing. However, much of the area around, even today, is heathland and scrub common, but at least the highwaymen who inhabited Bagshot Heath and other local commons, making their living on the nearby London to Exeter road, now commute the 30 odd miles to London to practice their trade as bankers, tax inspectors and solicitors!

There is an excellent introduction to the village in "*An Overview of the History of Yateley, Hampshire, England*" by Dr. R. H. Johnston published on the web by The Yateley Society[3] This history goes a long way into explaining why the area has throughout its history, remained very poor, with its absentee landlords in Winchester and London and their attitude to land ownership being more for status than profit.

Additionally the Yateley Society has made other documents related to the village available on either their website, or as hard copy, because as the introduction to the Yateley Society website says "*After a disastrous fire which destroyed most of Yateley Parish Church in 1979, through which however most of the Parish records fortunately survived, though with damage, Yateley's local historians felt it necessary to make the records of the Parish less vulnerable to such disasters by making transcriptions of the principal historical records of the parish. As early as about 1984 some of these records were being collated on computer, and the Yateley History Project now has many of the more important records of the village transcribed onto computer format. More recently, facsimiles of old photographs and paintings have been added to this ever expanding collection".* **The Yateley Tithe Map 1844**, with the names of the owners, occupiers and field names &c., is still available as hard copy (price £2.50) Whereas the **"Transcriptions of the 1841-1891 Yateley & Darby Green Census Records"** *(630kb ZIPPED. Lotus 123 WK1 format spreadsheet file),* and the **Phillimore's Marriages** – covering Hampshire and the Isle of Wight Vols. 1-15 *(ZIP 1318kb, of TSV files, includes small MSDOS program for easy reading, sorting and analysing this tabulated data)*, are available for free download from the website for use for personal research only.

The following description of the Yateley area and the break-up of the parish into several smaller parishes is from the description in Vol. 4 of the Victoria County History for Hampshire, published in 1911.

Some curious records exist with reference to the old Dog and Partridge Inn in Yateley village. This building was formerly the church-house belonging to the parish. At one time one half was a public-house and the other an almshouse, the latter portion belonging to the overseers. In 1734 it was agreed that the ` Dog and Partridge ' was to have all the custom of the church. The two halves were amalgamated in 1748, the overseers claiming part of the rent as being the former owners of the almshouse.

In Yateley there are 707 acres of arable land, 874 acres of permanent grass, and 171 acres of woods and plantations. The soil is Bagshot Sand. The chief crops are rye, wheat, oats, and barley, with some hay and clover.

Cove, which with a portion of the south part of Hawley was formed into an ecclesiastical parish from Yateley in 1838, covers an area of 1,972 acres and lies to the south-east of Yateley, 1 mile from Farnborough Station, on the main line of the London and South Western Railway. Cove Brook flows from south to north through the centre of the parish.

The manor-house lies to the north, and near it is Broomhill Farm, which is mentioned as early as 1261. The ground is low, seldom rising more than 230ft. above the ordnance datum. The soil is light; the subsoil sand. The chief crops are potatoes and roots. There are 162 acres of arable land, 450 acres of permanent grass, and 3 acres of woods and plantations in Cove." Inclosures were made in 1859 by authority of the General Inclosure Act.

Hawley, which was formed into an ecclesiastical district from Yateley in 1838, is on the Surrey border, 2 miles from Farnborough Station, and comprises the village of Blackwater. Hawley Hill Woods and Hawley Common occupy a large portion of the parish, while Darly Green is a large village green lying between Blackwater and Yateley. The Parish Council Room on the green is of brick, erected in 1897 by public subscription to commemorate the Diamond jubilee of her late Majesty Queen Victoria, the site being given by Mr. Laurence Currie. Fern Hill, the property of Mr. John Charles Randell, is a mansion situated on an eminence in a wooded estate of about 120 acres. Brooke House is the residence of Lieut. Colonel Courtenay William Bruce, JP. Hawley House, a large mansion of stone, pleasantly situated in a well-wooded park of about 6o acres, is the residence of Major Charles E. Orman.

Blackwater is a large village on the old Western coaching road, at the point of junction of Hampshire, Surrey, and Berkshire, with a station on the Reading and Reigate branch of the South Eastern Railway. An annual fair of cattle and sheep is held on Blackwater Green in November. Hartfordbridge flats, a vast extent of heath country, on which black game once existed, reaches from Yateley to Blackwater. The Oaks is the residence of Mr. John Charles Randell. Hawley with Minley includes 88 acres of water, and 4,860 acres of land, of which 824 acres are arable, 1,075 permanent grass, and 746 woods and plantations. The soil varies, the subsoil being clay. The chief crops are grain.

3 www.hants.gov.uk/yateley/index.html

Minley, which was formed with part of South Hawley into an ecclesiastical district in 1874, lies south of Yateley parish. Minley Manor, which has been rebuilt, stands about 300 ft. above the ordnance datum, and is the seat of Mr. Laurence Currie, lord of the manor. Minley Grange is the seat of the Rt. Hon. Edmond Robert Wodehouse, P.C., MA., and Fleet Farm House that of Captain the Hon. Charles White: White House is occupied by Major Ivan Richardson. There is a tradition that Minley Warren was the home of Colonel Blood, who attempted to steal the Crown jewels in the reign of Charles II. The soil of Minley is peaty and the subsoil sand, while the greater part is covered by wood and moorland.

Bramshott Golf Course is at Bramshott Bridge south of the railway, 1 mile from Fleet station, Hawley Pond, covering about 50 acres, is situated here. Hornley Common separates Minley from Hawley, and is mentioned as one of the boundaries of Minley in a document of 1516 .

The Tree

Until the late 19th century the Goddard members of this tree were mainly labourers with little education available to them and much less need for documentation than the present generation, in consequence, usually the only record of the lives of these people is contained in the parish recording of their baptism, marriage and burial. Even when these records have been found it has proved virtually impossible in some cases to identify one cousin from another with the same name, when they are roughly of an age and they have also married girls of the same name! Hence the use of guesswork.

The early part of the tree has been put together using this church data with few other parish records or family details being available, this leaves much to be desired and editor has had to resort to **Two Versions** of the tree being laid out in the following pages. Even with this subterfuge it is still likely that neither version will be proved correct by future research and that a third variant is required for the true path. The lack of early Goddard wills and other relevant contemporary documents, together with the commonality and frequent use of the same Christian names, has led to several "grey" areas of uncertainty within the tree. This limited information available from other sources, is not helped by the fact that the very few parish records, particularly in this area, are indexed. This is particularly the case with the data contained in the IGI[4], where few of "our Goddard parishes" for this area have been entered and what data there is should be treated with caution as much was introduced as "wish lists" by previous investigators, and is this mis-information that is now presented as fact.

Several of the jumps from generation to generation in the tree are to be treated with caution as must be some of the children within a generation because of the problem of the use of this limited number of Christian names – many generations have, say a Thomas who marries a Mary, unfortunately within the same parish, or within perhaps a few miles, other Thomas Goddards are marrying other Marys sometimes only weeks apart. The baptism of a child is frequently registered as say *"John son of Thomas Goddard and Mary"*. Which Thomas and which Mary? What is worse, from the point of differentiating between the individuals, is the entry, after several children at regular intervals, is the one that suddenly says something like *"Henry son of Thomas Goddard and Mary **of Cove***", is this the same Thomas & Mary we have been tracking; have they moved? Is this a different Thomas & Mary, while the other Thomas and Mary still live in the parish, but have ceased having children? Or is the parish clerk making this entry more fastidious than those making the previous entries? Researcher beware! The earlier registers are even less informative, prior to about 1700 the parish registers rarely show more than the fathers name.

Personal Computer Number

A personal computer number has been added to each name to uniquely identify an individual, this has no other significance. However, although no numbers are duplicated it is inevitable that, given the above problems of identity, occasionally a person is duplicated under different numbers, particularly when the trees have been generated by the different researchers are in variance and cannot be verified with other documentation. As a consequence this tree, as defined in the following pages, **must not be treated as a definitive article**, it is just an interpretation of the present combined common ground and an account of the state of the present research. There is much work awaiting the next generations genealogists to put this tree in good order.

All dates have been shown in their current calendar form for the year from January to December, not in the old form of year from April to March, e.g. 2nd of February 1617/1618 is shown in this document and tree as 2nd February 1618.

Sheets containing the family trees which have been numbered without an **"A"** have been derived from several sources, this work includes some of the research thought to be over 50 years old. These trees contain information which has been recycled several times without all the facts being proved or rechecked, but those marked 1A, 2A have been submitted from recent work where the researcher has revisited some of this earlier information and added more recently available data to develop his branch of the tree. However, some of this later work clashes with the earlier results and as some statements on relationship are not proven in either version, only a preference and because the relevant information has not been found to say which version is correct, both trails have been shown in this document, leaving the proof, or truth, to be found by future researchers.

4 IGI - The International Genealogical Index – available at many libraries and at www.familysearch.org

HEALTH WARNING:

Since these trees are derived from information, such as mentioned above, the 'TRUTH' of any link or statement made in this documentation is suspect.

Sheet 1

The marriages of Christopher Arnold and Margaret Goddard 25th September 1569 together with that of Peter Goddard and Joan Payse on the 3rd June 1594 and then the marriage of, probably the son of the latter, Peter Goddard to Frissa (Frideswide?),Ezitt on the 29th July 1639, all at Eversley, together with the marriage of a Philip Goddard to Agnes Batchelor at Odiham on the 19th April 1613 show that the Goddards are spread out in the villages around Yateley well before the start of any reliable contiguous documentation. Most of the original trees have started with 03170 Holland, who is thought to have been born in the parish of Farnborough Hampshire in about 1594 and who, with his wife 03172 Katherine, (there is some doubt over her Christian name), had a daughter 07596 Joan baptised 28th December 1612 in Farnborough, followed by a son 03173 Holland, who was baptised at St Michael's church Aldershot on the 11th December 1614. No other children have been found at present. [Editors note:-Holland was a relatively common name at this period, and for the next three centuries, there are over 8000 listed in the U. K. listed in the IGI alone, including some named "Holland Holland". "The Oxford book of Surnames", and other worthy tomes report it to be derived from one of the 8 villages named or sounding like "Hoe-land" scattered throughout the country in the middle ages. It is in these areas that the both the surname and the 1st name of Holland is also predominantly found, particularly Essex, Lancashire and Lincolnshire. The personal name of Holland was around long before that little country in the Netherlands was founded and stole the name, but then the Germanic Dutch claim that their use of the name was merely coincidental and their name of "Holland" is derived from a totally different source!]

From disjointed references in the parish registers, it appears that 03170 Holland could have had at least two brothers, Nicholas who married Mary Thaire at Yateley in 1650 and produced a family in the area, (see sheet 1A), Philip who was married with at least one child baptised in Farnborough and with possibly a third brother, John, who also produced a local family, but these families have yet to be investigated.

03170 Holland was buried at Farnborough on the 30th April 1626, and his wife 03172 Katherine Goddard was buried in Farnborough on the 16th April 1655. Nothing further is known about the life of Holland's sister, 07596 Joan, but she may be the Joan Goddard who married Edward Hale at Yateley on the 24th November 1636.

03173 Holland married firstly 03174 Margaret Harwood, (possibly Harmwood, a more common name in the area), *"of Walgrave"* Berkshire, at Yateley on the 25th April 1639. They had two daughters born at Farnborough 03176 Katherine who was baptised at Farnborough on the 1st February 1639 and 03177 Margaret baptised on the 28th November 1642. It is thought that 03174 Margaret probably died soon after the birth of their second child. It has been reported that 03176 Katherine had an illegitimate son Joseph in 1666, but this is, as yet, unsubstantiated.

03173 Holland married, secondly, 03175 Jane Eades at Crondale on the 1st July 1644 at Crondale in Hants. They are thought to have had a total of 8 children, all of whom were born and baptised at Farnborough. The first 03178 Jane was born about about 1645 but no baptismal record has yet been found, 03179 Elizabeth was baptised on the 5th October 1646. The first son was probably 03182 Holland who is said to have been baptised at Farnborough on the 22nd February 1648, but this has not been confirmed from the parish records. 03180 John was baptised on the 1st January 1648 and 03181 Hannah (or some say Harriet) on the 13th August 1649, followed by 03183 Nicholas who was baptised on the 7th July 1655. 03184 William baptised on the 5th March 1656 and lastly another daughter 07605 Mary who was baptised on the 31st May 1657, but nothing further is known about either of these last two children.

03173 Holland was buried in Farnborough on the 5th June 1656, so this indicates that the baptism of some of the children could be out of step with their birth. This is unusual as most baptisms, before the 20th century, were usually within a day or two of the birth, but his is the period of the Commonwealth, so anything could have happened. However, it could justify the rechecking of the Farnborough records for confirmation of these baptisms.

No research so far has found the name of the wife of 03182 Holland, but he most surely had one, as 8 children were baptised at Yateley church, between 1682 and 1701, with him named as their father. The first was 04880 Nicholas who was baptised on the 26th February 1682. Although the marriage of 04880 Nicholas appears in the Yateley registers there is no further information from this source regarding his brothers and sisters other than their baptisms. However, the following notice appears in the parish register which covers the probable period of any possible marriages for this branch:- *"The Revd. Mr. Thomas late Minister of Yateley in the County of South'ton having almost wholly neglected to register Christenings or Marriages from the year 1710 to the year 1730. Therefore to supply that Deficiency the Minister & Churchwardens have collected what intelligence they could from the memories of families in the Parish (publick notice being given of that Defect in the Church) in order to have the same recorded in the Parish Register. But most Families in the Parish having once recorded the Day of their Childrens Birth, the day of their being baptiz'd is infer'd only by conjecture."* Additionally, when their register for those years is examined, it looks as if the response to the churchwardens request for information must have been poor, particularly for the marriage information.

No baptismal records have been have been found for 03180 John and 03181 Hannah (or some researchers suggest Harriet) but the birth dates were probably within a couple of years of 1747. 03180 John *"of Cove"*. or sometimes *"of Illmore"* married Catherine Peters, *(Catrene Peeter married John Goodarde* according to the IGI*),* at Shere, near Guildford on the 17th January 1678, they are thought to have had at least 4 children born at Yateley.

Their first son 03186 John married 03190 Mary Hill in Yateley on the 5th July 1703 (see Sheet 2). Of the other children there are few details known at present apart from their baptism dates at Farnborough, 03187 Holland 15th January 1681, (he was *"of Cove"* when he was buried at Farnborough on the 2nd May 1748). 03188 Catherine was baptised on the 8th April 1863 and also buried at Farnborough on the 24th July 1722, (she was *"of Cove"* when she was buried), while 03189 Jane was baptised on 25th February 1685.

03182 Holland is a mystery, he is said to have been baptised at Farnborough on the 22nd February 1653 but nothing further is known about him until the baptism of his 8 children in Yateley parish records between 1682 and 1701. These records studiously ignore the name of his wife, and their marriage, in about 1680, has yet to be found.

03183 Nicholas is reported to have been baptised on the 7th July 1655 and all that is known about him is that he was married, according to the IGI, in the parish of Send & Ripley, near Guildford Surrey, on the 7th January 1682 to Mary *"Rishridger"*, this has been variously interpreted as *"Risebridger"*, or the more likely surname of *"Risborough"* from the village of that name. A further possibility is a mis-hearing of the surname *"Ridge"* or *"Ridger"* both are known in the Yateley area. The only child that has been found so far is a son, 07595 John, who was baptised on the 7th January 1683, in the parish of Send & Ripley. However, a girl 07604 Catherine, was baptised at Farnborough on the 12th November 1682, who may also have been their daughter, although there is no positive evidence that she is from this family group, so she could have been from another branch. The Farnborough parish register is ambiguous and very difficult to read for this entry. 07595 John may just be the John Goddard who married Hannah Symonds at Farnborough on the 6th June 1706 but the evidence is insufficient to justify adding this detail to the tree. To compound the problem of interpretation of the Farnborough baptismal records are thought by some, to read 03183 Nicholas son of 07999 Nicholas as shown at the top of Sheet 1A, called 08001 Nicholas. However, if this is the case it is then difficult to justify the continuation of the name Nicholas over the next three generations on Sheet 1 and the name of Catherine for the possible daughter, but there are no further examples of the name Nicholas found for the tree on Sheet 1A, where one would expect them.

03184 William was said, by at least one researcher, to have been baptised on the 6th March 1654, but this is, as yet, unconfirmed and no further information is available on his life at present.

07605 Mary was baptised on the 31st May 1657 at Farnborough and all that is known of her life is that she is thought to have married 7762 Nicholas Walker, in the parish of Send & Ripley Surrey, on the 30th May 1673.

The parish registers for Yateley show the baptisms of 8 children where 03182 Holland is named as the father between 1682 and 1701, but none of the entries give a name for their mother. The first was 04880 Nicholas was baptised on the 26th February1682, he married 04881 Elizabeth Hill at Yateley church on the 5th August 1708. She was born in Hawley the daughter of Henry Hill, and had been baptised at Yateley 28th January 1683. She, 04881 Elizabeth Hill, was probably the sister of 03190 Mary Hill who had married his cousin 03186 John in 1703. Nicholas was a farmer, he is classified as a *"husbandman"* in the 1754 guardianship papers for his grandson 04902 Nicholas.

04882 Anne the second child of 03182 Holland was baptised in Yateley on the 25th February 1685 and she, like all the subsequent children, with the exception of Robert, are only known by the record of their baptisms in Yateley and, so far, little further information has been found for them. 04883 John was baptised on the 7th May 1687, 04884 Samuel was baptised on the 11th January 1690

The exception is 04885 Robert who was baptised at Yateley 28th October 1692 and was married at Eversley Hants on the 25th November 1723 to 08073 Frances Newman, but no children have been traced from this union at present.

There are two possible reports of 04886 Mary who was baptised on the 30th October 1695, she was according to one report, the Mary who was buried at Farnborough on the 3rd of July 1726, but by another, that it was she who married Francis Butler on the 30th September 1716, either one of these reports is a possibility.

Only the dates of their baptisms is known for 04887 William on the 8th October 1698 and 04888 Sarah on the 3rd November1701.

04880 Nicholas and his wife 04881 Elizabeth, nee Hill, are thought to have had at least 6 children who were all baptised at Farnborough. However, after the first two children, 04889 Holland baptised on the 17th March 1709 and 04891 Nicholas baptised on the 3rd January 1711, there is a gap of 8½ years before the next child 04892 Samuel is baptised and then followed by three more children at regular intervals of about 2½ years. This may mean that there are missing children, or, 04881 Elizabeth had died soon after 1711, and that 04880 Nicholas had remarried, then the birth of 04892 Samuel signified the start of a second family, but there is no firm evidence for either conjecture at this time.

The first son of 04880 Nicholas and Elizabeth, nee Hill, 04889 Holland was baptised at Farnborough on the 17th March 1709, he was married at Basingstoke to 04890 Hannah Smith on the 9th February 1747. Their first child was 07597 John who was baptised on the 15th April 1748, but who probably died young, because there is no mention of him in a transfer of guardianship order[5] for a second son, 04902 Nicholas, in 1754. The guardianship of 04902 Nicholas is transferred from 04880 Nicholas to his maternal grandfather Henry Smith for the "admon" of 04880 Nicholas, obviously following his death, and with the note that 04889 *"Holland Goddard eldest son and father decd."* So obviously grandfather 04880 Nicholas, who was buried at Yateley on the 2nd February 1754, had been looking after the young 04902 Nicholas, for whom no baptismal record has been found, and who was probably a orphan after his father had died, sometime prior to the 14th June 1754 when the order was issued by the Winchester court. The records of the burials of neither 04889 Holland, nor 04890 Hannah, have been found.

At this point in the tree serious problems of unique identity arises with the next son 04891 Nicholas, there are at least two, possibly three children, related as cousins born within two or three miles of each other between about 1710 and 1720, who were each named Nicholas Goddard. So where marriages and the subsequent next generations are concerned, which Nicholas is which? All that has been established is that a Nicholas married 04896 Martha Dessens (or Daffins), at Yateley on the 11th April 1743 and a Martha Goddard, widow, was married to a William Searle, following the reading of their banns, on the 23rd October 1756 at Yateley, her first husband, Nicholas Goddard, was buried at Farnborough on the 19th February 1755. And it is only as a matter of convenience NOT PROOF that 04891 Nicholas , the son of 04880 Nicholas and Elizabeth, nee Hill has been chosen for these events! Having said that, Nicholas and Martha had 7 children all baptised at Farnborough.

[It is noted that there is a gap between March 1750 and February 1756 in the Yateley Burial records, although both the Christenings and the Marriages registers seem to have been correctly maintained.]

Of 04892 Samuel, only his baptism is known at present, this was on the 7th February 1719 at Farnborough, although because there is a gap of 8 years between the baptism of his elder brother Nicholas and this Samuel followed by the regular intervals between the next younger children, it is suspected that their mother was not Elizabeth nee Hill, but the parish register does not report her death or a subsequent marriage for 04880 Nicholas. The next child was 04893 John who was baptised on the 9th February 1722, followed by 04894 Mary baptised on the 18th October 1724 and who, it has been suggested, was possibly the Mary Goddard who married a Joseph Harris at Yateley on the 27th October 1748. Finally, for this generation, 04895 Ann who was baptised on the 7th January 1727, she married 07763 Joseph Earles (Ells or Eels, a common name in the area even today), on the 22nd October 1757 at Yateley with what we must presume was her brother, 04880 Nicholas, as a witness to this marriage.

The known children of 04891 Nicholas and 04896 Martha, nee Dessens were all baptised at Farnborough, 07598 Nicholas was baptised on the 26th July 1743 and buried on the 19th February 1755. 07599 John was baptised on the 18th November 1744, 07601 Mary on the 2nd May 1746, 07602 Thomas 3rd May 1747, 07603 William on the 8th January 1751, 07606 Ann on the 5th November 1752, she was buried the following day the 6th November 1852, and finally there was 07606 James baptised on the 6th February 1754.

Alternative Sheet 1A

An equally feasible tree has been generated from the research of Ernest Goddard, given the disjointed nature of the information available to date from the early parish records. The trees generated on the "Alternative" sheets is no more, or no less, likely give a true picture than those trees generated from several researchers work which, in some cases, shows the signs of "recycling", mistakes and all.

The date of birth of 07999 Nicholas has been assumed from the date of his marriage to 08000 Mary Thaire on 30th August 1650 at Yateley, as no records of either his or Mary's birth have been found. The earliest parish register for Yateley, including Cove and Hawley dates from 1630, although several adjacent parishes such as Eversley have records from before 1600 and show Goddard families to be well established in the area a generation before Nicholas, but we are without the information to relate him to any of them. No burial record has been found and no will survives for 07999 Nicholas, but there is the "Admon" of 1666[6] for a "Nicholas of Cove" a yeoman farmer which could fit neatly for time and place for it to be for this 07999 Nicholas.

Three children have been identified as being possibly from this union of 07999 Nicholas and 08000 Mary Thaire, 08001 Nicholas, born about 1655, but see Sheet 1 and the relevant notes regarding the 03183 Nicholas who was baptised on the 7th July 1655. 08002 John baptised on the 24th October 1658 at Farnborough and also baptised at Farnborough was 08003 Thomas on the 2nd February 1664. It is said that the 08002 John was the John Goddard who was buried at Farnborough on the 17th January 1722.

5 *Winchester Guardianships after 1700 compiled from Diocesan Records* compiled by Arthur J. Willis 1967 copy in Winchester Local Studies Library

6 Hampshire Record Office in Winchester

There may then be a generation gap before 08004 John is baptised at Farnborough on the 3rd October 1693, but he is thought at present to be the son of 08002 John and the brother of 08006 Arthur who was born on the19th May 1699 and baptised three days later on the 21st May. In both case the father is reported just as being *"John of Cove"*.

Acting on age and place of residence it has been assumed that it is 08004 John who married 08005 Sarah, surname date and place unknown, to provide the next generation with 6 known children all baptised in Farnborough, although more may have been baptised at their mothers parish, as is common practice. However, their first child is thought to have been 08007 William, baptised on the 9th March 1728, next 08008 John baptised 14th May 1730, followed by 08009 Arthur on the 6th September 1732 and Thomas on the 25th March 1738. The last two children were both girls 08011 Sarah baptised on the 13th January 1741 and then the last 08012 Ann was baptised on the 5th February 1745 and it is thought that it was this the *"Ann Goddard of Cove aged 57"* who was buried at Farnborough on the 21st July 1801.

08007 William married 08009 Ann, again her surname and date and the parish are at present unknown, and nothing of the lives of their six children is known apart from their baptism dates in Farnborough parish register. 08062 Thomas 9th July 1758, 08063 Ann 1st November 1761, 08064 Arthur 26th August 1764, 08065 Elizabeth 2nd November 1779. 08066 Ann 12th September 1779, (presumably 08063 Ann had died young), and finally 08067 William baptised on the 17th August 1782 had the additional note in the parish register against his baptism *"of Cove"*.

The next problem area relates to two marriages in Yateley the first was for a Thomas Goddard marrying Sarah Reynolds on the 9th June 1762, while the second was the marriage between a Thomas Goddard and Mary Priseman on the 2nd February 1765. Which Thomas is which, or alternatively, are they be the same Thomas? The names of the marriage witnesses are no help, the names are too common in the area, as are the names of their subsequent children. Generally the researchers for these trees have ignored the Thomas and Mary Priseman line, presumably because there are no obvious children listed, other than possibly a son John baptised in Farnborough in 1769. However, all the trees show the children of the Thomas and Sarah, nee Reynolds but there are two schools of thought as to who was the father of Thomas, if you are a believer in the tree started on Sheet 1 and Sheet 2, then the parents of 04876 Thomas, (married to 04877 Sarah, nee Reynolds), were 03192 John Goddard and 03193 Anne, nee Smithers. If, however, you find the "Alternative" version depicted on Sheet 1A more plausible, then the parents of 08010 Thomas, (married to 04877 Sarah, nee Reynolds), were 08004 John Goddard and 08005 Sarah. In either case the 8 children found for Thomas and Sarah, nee Reynolds remain the same and are shown on Sheet 3. Until some research into adjoining parishes and their records is carried out this question, and many of the other queries and the alternative scenarios, will remain. Until more adjacent parishes and their records are searched this will remain an unresolved question.

Sheet 2

This is the continuation from Sheet 1 picking up at the point of the marriage of 03186 John Goddard to 03190 Mary Hill at Yateley on the 5th July 1703 when he was called "John Goddard of Ilemore (sometimes called Illmore or more recently Owlsmore). Mary was probably the daughter of Henry Hill of Hawley, but her baptism has not been found. 03186 John Goddard and 03190 Mary are known to have had 5 children, the first 03191 Mary, was baptised at Yateley on the 13th July 1704. 03192 John was said to have been baptised on the 20th November 1708 at Farnborough and he married an Ann Smither at Yateley on the 27th February 1737 and if that is the case then there is a further sub-branch to be researched on his family of at least 4 children and one named Thomas has been suggested by one researcher as the Thomas who married Mary Priseman.

03194 Thomas was baptised at Farnborough on the 12th December 1711 but little is known about him other than his burial at Farnborough on the 21st April 1849.The contents of his will, written in 1745, give little away, other than he was a husbandman and that he does not appear to have ever married, but his wealth consisted of only a few pounds.

03195 Ann was baptised at Farnborough on the 6th December 1713 and it is thought that it is her burial, aged 90 years that is reported in the Yateley registers for the 28th December 1804. The last known child of 03186 John and Mary, nee Hill, was 03196 Nicholas, he was thought to have been born about 1715 but neither his baptism nor his marriage to 03197 Sarah, surname unknown, has not been found.

03186 John Goddard *"of Cove, yeoman"* was buried at Farnborough on the 17th January 1722, his will is available in Hampshire Record Office, document number 1722A 039 (the transcription below is from Ernest Goddard). 03190 Mary was also buried at Farnborough, on the 3rd July 1726.

Will of 03186 John Goddard

In the name of God amen the 21st day of December Anno Domini;1721. I John Goddard of Cove in the parish of Yateley in the county of Southampton, yeoman, being of perfect memory and remembrance, praise be to God, do make and ordain this my last will and testament in manner and form following; first I bequeath my soul into the hands of Almighty God my maker, and as for my body to be buried in Christian burial at the ??? of my executrix hereafter nominated; ??? I give unto Mary, my wife, all my house and all my land, all the time she keep herself a widow and then to my son John and his heirs for ever upon condition that he shall pay twenty pounds to my daughter Mary and pay twenty pounds to my son Thomas and pay twenty pounds to my son Nicholas; ?? all the rest of my money and goods

whatsoever give unto Mary my wife upon condition that she shall pay all my debts and make her sole executrix of this my last will and testament, revoking all other wills and testaments, in witness whereof I have hereunder set my hand and ?? the day and year first above written witnesses.

John Goddard

(His mark) John Goddard
His mark Official stamp
William Burtt ??
Nicholas Streate

04875 John, the first child of 03186 John and 03190 Mary, was baptised at Yateley on the 3rd August 1739 he married twice, both marriages were at Yateley, the first to 05313 Elizabeth Williams on the 17th November 1765, she died after October 1775 and John then married 07697 Sarah Marlow on the 2nd May 1781. In total 04875 John fathered 14 children, their sub-branches are shown on Sheet 5 and Sheet 11. He is said to have left a will when he died in 1824, but no details have been given.

Several of the previous researchers have thought that it was 04876 Thomas, the second child of 03186 John and 03190 Mary and who was baptised at Yateley on the 31st October 1741, who married 04877 Sarah Reynolds at Yateley on the 9th June 1762. Sheet 3 continues the history their branch of the tree with their 8 known children.

04878 James was baptised at Yateley on the 27th April 1744, he was married to 05303 Jane Williams on the 22nd of October 1773 at Yateley after they had already had two of their 12 children. One of the witnesses at their wedding was a William Goddard whose relationship to the family has yet to be established. 05303 Jane Williams was baptised at Yateley on the 29th November 1752 the daughter of Allen Williams and Mary, nee Innis. 04878 James signed his will[7] on the 22nd May 1819 and was was buried on the 30th June 1819 at Yateley, as was his wife 05303 Jane, on the 21st April 1839 when she was said to be *" aged 87 of Hawley",* according to her entry in the burial register. Sheet 6 shows the next two generations of this branch.

04879 Nicholas was baptised at Yateley on the 25th July 1745, he married 05444 Patience Hopkins at nearby Eversley on the 26th December 1774. Patience was buried at Finchampstead Berkshire on the 18th July 1811. This branch is continued on Sheet 7.

05446 Anne was baptised at Yateley on the 21st November 1747 where she was also married on the 19th May 1766 to 07746 Richard Antrim.

Nothing is known 05447 Mary apart the record of her baptism in Yateley on the 3rd October 1752.

Little documentation has been found for the last known son of 03186 John and 03190 Mary, 03196 Nicholas and none of his 'personal dates' have been found. From the baptism records of his 12 children it is established that he married a 03197 Sarah, surname unknown in about 1734. According to Yateley parish registers a Nicholas Goddard was buried on the 2nd June 1769 and a Sarah Goddard *"aged 88 of Hawley"* was buried on the coincidental date of the 2nd June in 1797. These may be the records of the burials of husband and wife, 03196 Nicholas and 03197 Sarah, but without further information this must remain only a possibility.

The first known child of 03196 Nicholas and 03197 Sarah is thought to have been 07982 Anne who was baptised on the 12th April 1735, at Crondall, as wastheir next child 03198 John on the 3rd June 1737. Nothing further is known about either of them at present, but these baptisms may indicate that Crondall was their mother's parish.

03199 Sarah was baptised at Yateley on the 9th April 1740 where she also married 07696 John Moth, a carpenter of Yateley, on the 30th August 1762. 07696 John Moth had been baptised at Yateley on the 3rd February1740, the son of Richard Moth and Sarah, nee Nash.

03200 Samuel was baptised at Yateley, on the 17th June 1742, where also he married 07764 Elizabeth Wilson on the 14th August 1768 but apart from the baptism of one daughter at Yateley on the 6th September 1772 nothing further is known. However, Yateley register records a Sarah Goddard who was born on the 10th October and baptised on the 23rd October 1790, *"the illegitimate daughter of Nicholas Goddard and Sarah Siggery"*, this Nicholas is possibly another child of 03200 Samuel and 07764 Elizabeth. This was followed Samuel *"the illegitimate son of Nicholas Goddard and Sarah Siggery"*, born on the 8th September 1792 and baptised on the 30th September 1792. Later there was Francis *"the illegitimate son of Nicholas Goddard and Sarah Siggery"*, born on the 6th August 1795 and baptised on the 22nd August 1795.

07737 Betty was baptised at Yateley on the 28th July 1744 but nothing further is known about her.

7 Original in Hampshire Record Office Winchester.

03201 Holland was baptised at Yateley on the 19th April 1746 he married 03202 Mary Calloway, (or Callaway, both versions are known in the area), again at Yateley 27th February 1786, but under the alias of *"Howell Goddard"*. He continued with this alias of *"Howell Goddard"* when he is a witness, with his sister 03207 Hannah, at the wedding of his niece Sarah Moth to William Hampton on the 17th July 1792. *Howell* was witness at several other family weddings. However, all their 7 children were baptised at Yateley with their baptisms in the parish register with the name of their parents given as *"Holland Goddard and Mary",* at the same time as he was being called *"Howell"* at the other events. Many of the children were said to be *"of Hawley"* in the baptismal register, as was 03201 Holland when he was buried, aged 91 in Yateley on the 11th March 1837. Yateley register records the age of 03202 Mary as 74 years when she was buried on the 27th July 1834.

The use of the name *Howell* is odd in connection with this particular Goddard family, although it has been used occasionally by a totally unrelated North Wiltshire family in both the 17th and 18th centuries. The forename of *Holland* is not uncommon in the area around Yateley at this period there are several "Hollands" in the area with surnames other than Goddard, however no check has been made to establish whether any, or all, were related to a Holland Goddard. Although neither 03201 Holland nor his wife Mary were literate it does not explain this odd, but consistent behaviour regarding the entries in the parish registers. Viewing the actual entries in the registers, or their microfilmed images, rather than the transcriptions, may provide the key to the puzzle for those inquisitive enough to require the answer.

03203 Nicholas is only known from the registration of his baptism at Yateley on the 30th May 1748. Similarly, the only information found for 03204 James is his baptism on the 22nd June 1750 and his burial on the 30th June 1819, both were at Yateley. There is no knowledge of a marriage or children attributable to him at present.

03205 Mary was baptised on the 2nd May 1752 at Yateley where she was also married, on the 14th October 1770 to 07947 Edward Soan, who was the son of Thomas and Elizabeth and had been baptised on the 6th April 1746 also at Yateley. One of the witnesses at the marriage ceremony was *"Howell Goddard"*.

03206 William, like his brother James, is only known from the registration of his baptism at Yateley on the 16th March 1748 and his burial on the 14th June 1804 both events were at Yateley. There is no knowledge of a marriage or children attributable to him at present.

03207 Hannah was baptised on the 9th April 1756 and she is recognised as a marriage witness along side her brother *Howell* at one or two marriages, but nothing further is known about her. Even less is known about her younger sister 03208 Anne who it is claimed by one researcher, to have been baptised on the 12th of April 1758, unfortunately no parish has been given and there is no record in the Yateley records. However, the Yateley records for several years either side of this event show every sign of neglect in the entering of events with no baptisms for 1757, (page torn from register), 9 baptisms in 1758 and only 2 in 1759, when this is set against the average of 40, with some years nearly 50 baptisms one must suspect negligence by the parish clerk, especially, when after a few years, the numbers revert to the previous norm.

07766 William is the first of the children of 03201 Holland 03202 Mary, nee Calloway, born on the 5th May 1786, he was baptised at Yateley on the 9th June 1786. He married 07767 Lucy Hatch at Yateley on the 4th November 1815. They are known to have had 8 children all baptised at Yateley and all shown as *"of Hawley"* in their baptismal records, while in the same records their father William is classified as a labourer. 07767 Lucy was buried at Finchampstead Berks. on the 14th February 1844 aged 68 years. Their family branch is shown on Sheet 14.

07768 Nicholas *"of Hawley"* was born on the 30th August 1787, he was baptised at Yateley on the 28th September 1787.

07769 Elizabeth *"of Hawley"* was born on the 28th May 1789, she was baptised at Yateley on the 4th July 1789, her marriage in the same church, to 07769 Michael Gould, was on the 21st September 1813.

07771 Ann *"of Hawley"* was born on the 18th October 1791, she was baptised at Yateley on the 20th November 1791.

03209 James *"of Hawley"* was born on the 18th December 1793, and he was baptised at Yateley on the 18th January 1794. James married 03210 Jane Coffee at Yateley on the 3rd November 1821. The branch showing their 9 children is continued on Sheet 8.

07772 Holland *"of Hawley"* was born on the 11th February 1796, he was baptised at Yateley on the 20th March 1796. He married 07773 Eleanor Moth at Yateley on his 26th birthday, the 11th February 1822, she had been born on the 19th June 1803 and baptised at Yateley on the 17th July 1803, the daughter of William and Sarah Moth, nee Edmeads. 07772 Holland died in Guildford Union Workhouse in March 1873. Their 6 children that continue family line is as shown on the tree on Sheet 9.

Apart from the baptismal record of 07774 Samuel in Yateley, on the 14th December 1800 which also recorded his birth on the 2nd of November 1800. nothing further is known about him.

Alternative Sheet 2A

This is the continuation from Sheet 1A picking up at the point of the marriage of 07610 James Goddard to 07611 Mary Wells at Yateley on the 24th July 1794. The first few of their 11 children were *"of Hawley"* when baptised, but the later ones were *"of Yateley"* while James was designated in the parish register as a *"labourer"*. From the pattern of the marriages it is clear that the family moved across the county border to Frimley Surrey sometime between 1814 and 1820.

The only information found for 07621 John is in the baptismal register of Yateley where it gives birth and baptism dates as the 3rd December 1795 and the 6th December 1795, respectively.

07622 Jane was born in Hawley and baptised in Yateley, born on the 29th October1797, baptised on the 4th November 1797. She was married to 07948 Charles Dew on the 11th October 1824 in Frimley.

Likewise, 07623 Mary was born in Hawley and baptised in Yateley, born on the 10th August1799, baptised on the 25th August 1799. She was married to 07949 Joseph Finch on the 10th June 1826 in Yateley.

[This particular sheet, Alternative Sheet 2A, which should be read in conjunction with Sheet 3, has been generated to reflect the differing views between researchers into these trees and in particular the "Thomas's" who married Mary Ives and Mary Mason. Opinion is about equally divided between for Mary Ives or Mary Mason marrying Thomas, the son of 07610, James and Mary nee Wells, and indeed, which child belongs to which marriage. One should recognise, of course, that from the information available at this time, it is more than possible that neither of these Thomas's is the son of 07610, James and Mary nee Wells, as there is evidence that there were several others named Thomas Goddard born in nearby parishes who could be candidates for these marriages. Note also that there is obvious duplication of the children bearing different computer numbers until their parentage is defined and they can then be correctly allocated.]

For the purpose of the tree depicted on Alternative Sheet 2A 08061 Thomas, the second son of 07610, James and Mary nee Wells, was born in Hawley and baptised in Yateley, born on the 5th December 1801, baptised on the 20th December 1801. He was married to 08014 Mary Ives on the 23rd August 1823 in parish of Ash. One account states that Thomas died in 1882, since he has not been recognised in searches of the 1881 census this information is therefore suspect. 08061 Thomas and Mary, nee Ives could have had as many as 12 children although, it is to be expected that, after more research several will be allocated to other parents. 08014 Mary was buried on the 19th May 1845 at Frimley soon after the birth of 08028 Arthur. But is this 07625 Mary, nee Mason, being buried on the 19th May 1845 at Frimley soon after the birth of 07650 Arthur? There is obviously only ONE Arthur, so if anyone can find out who the mother of Arthur was, it will go a long way solving the Mary Ives/Mason mystery. 08061 Thomas is said to have married again at Frimley on the 18th April 1857 to 08026 Mary Anne, the daughter of William and Elizabeth Read who had been baptised at Arborfield Berks., on the 18th May 1813. Some of the problems associated with recording the history of 08061 Thomas arise from the discrepancies of some of the entries in the various census and the parish records, his age does not match in several cases and his place of birth often differs from record to record. However, here is a person who had no need of reading or writing and time and place, only the odd 5 years or 5 miles and that probably did not matter to him. Additionally, in several cases, the information was probably being given by a third party who may have had to guess the answer to these personal questions and in times of some stress.

As there is no conflict between researchers regarding the rest of the children of 07610 James and 07611 Mary, nee Wells they will be described with the Sheet 3 group.

08015 Mary has been reported as being the first child of 08061 Thomas and Mary, nee Ives, and born about 1824 although no evidence of her birth or any further information has been given.

08016 Louisa is estimated to have been born about 1823 she was *"of this parish"* when she married a 08017 John Goddard, his parentage and other details are as yet unknown, at Frimley on the 25th February 1850. It is known that 08016 Louisa had had an illegitimate son, 08029 James Clarke Goddard, who was baptised at Frimley on the 12th February 1844 and one could surmise that the name of father was *"James Clarke"* and that he had not, for one reason or another, done *the decent thing*! The later life of 08029 James Clarke Goddard has not been identified yet.

08017 John Goddard and 08016 Louisa, nee Goddard are known to have had 8 children: 08036 Ellen baptised at York Town 21st December 1851, 08037 Henry baptised at York Town 14th October 1853, 08038 Mary baptised at York Town 1st November 1855, 08039 Annie baptised at Frimley 6th September 1857 none of the foregoing have been found in the 1881 census. 08040 Edwin baptised at York Town 25th December 1860 was a domestic gardener in Lewisham Kent at the 1881 census, but he has not been found in the index for the 1901 census, while his younger sister 08041 Fanny, baptised at York Town 29th June 1863 is a hospital maid at Wandsworth Incurables Hospital for the 1881 census. However, neither of the youngest sons, 08042 William baptised at York Town 27th July 1865, or 08043 John baptised at York Town on the 25th August 1868, have been identified in either census, but then neither have their parents, 08017 John Goddard and 08016 Louisa. In the 1901 census there is a Louisa aged 79 (born 1823-24), working in Crowthorne as an assistant schoolmistress who said she had been born at Aldershot and it is an obvious possibility that this is 08016 Louisa.

08071 Ellen was baptised on the 8th June 1828 at Frimley, but nothing more is known about her and with the knowledge we have at present she like some, or even all, of the other children in this group, could have been the either the daughter, of 08061 Thomas and 08014 Mary, nee Ives, or of 07624 Thomas and 07625 Mary, nee Mason.

08018 Henry was born in Frimley, about 1832, according to his record in the 1881 census he was at that time a coachman living at 5 Foundry St., in the St Giles district of Reading, with his wife 08019 Jane, who had been born in Farnham in about 1831, together with their 6 children, all of whom had been born in Reading. 08030 Fanny, aged 20, was a packer at a biscuit factory, (Huntley & Palmer – as a guess), 08031 William was aged about 18 and a general labourer, 08032 Emily was also a biscuit packer aged 14, then there was 08033 Louisa aged 12, 08034 Frederick aged 10 and 08035 Kate Elizabeth who was aged 9. No other research has been carried out on this family so far.

08020 John was born at Blackwater and baptised at Frimley on the 9th September 1832, he married 08021 Charlotte at Basingstoke on the 3rd May 1857. 08021 Charlotte had been baptised at Basingstoke on the 12th October 1834, the daughter of Thomas and Elizabeth Whettleton, nee Grove. In 1881John and Charlotte were living at 4 Birchett Rd Aldershot, Hants and at which time 08020 John was, according to the census record, a Cab Proprietor. They had living with them 7 children, although their first son, 08044 Henry, reported by one researcher to have been born in 1856, sometime before his parents married, has not been found on the 1881 census. Of the other children 08045 John was then aged 21 said to have been born in Farnborough he is unmarried, but no employment has been given for him. 08046 William had been born in Aldershot, he was aged 17 and employed as a "Coachsmith". The other 4 children, all girls, were born at Aldershot, according to the 1881 census return, and all were presumably still scholars, 08047 Emma aged 13, 08048 Lizzie aged 10, 08049 Annie aged 7, and 08050 Alice aged 5.

08022 George was baptised on the 22nd July 1834 at York Town, where he was also buried on the 7th February 1836.

08023 Fanny was baptised at Frimley on the 15th May 1836.

Once more there is the problem of parentage, if the parents of the next son William, where 08061 Thomas and 08014 Mary nee Ives his computer number is 08024; however, if it turns out that his parents were 07624 Thomas and 07625 Mary, nee Mason then his computer number is 07645. Either way 07645/08024 William was baptised at Frimley on the 1st May 1838, he married Charlotte Shurvell on the 31st August 1862 at Reading. Their children and the continuation of this branch are shown on Sheet 4. William was a Cab Proprietor in 1881 and his family were living at the Post Office Yard Farnborough. At that here were 7 children, 07663 Edwin Cecil Goddard was not born until the September following the 1881 census in the April of that year. 07645/08024 William died at Farnborough in July 1900 after which Charlotte is shown in the 1901 census as having taken over the business and is a "Cab Proprietor". She is thought to have died in 1909.

08025 Thomas was baptised at Frimley on the 12th April 1840 he has not been found in the 1881 census returns.

08027 James was baptised at Frimley on the 27th June 1841 but nothing further is known about him, unless of course, he is the James Goddard, a general labourer in the 1881 census of Frimley, who was claiming to have been born in 1845 who had married Harriet of Seal Surrey and who at that time had 7 children between the ages of 3 and 13 – their Christian names are a good fit for this family. So just maybe!

Both the last two children of 08061 Thomas and 08014 Mary had very short lives and both were buried on the same day, according to the transcription of the Frimley Parish Registers in the IGI, on the 30th July 1845, and only 10 weeks after the burial of their mother. 08072 Joseph had been baptised on the 26th February 1843, (died at about 2½years old), while 08028 Arthur was only about 2 months old when he died, having been baptised on the 1st June 1845.

Sheet 3

This is the continuation from Sheet 2 and Sheet 1A, picking up at the point of the marriage of 04876 or 08010 Thomas Goddard to 04877 Sarah Reynolds at Yateley on the 9th July 1762. Sarah is probably the third child of Thomas and Elizabeth Reynolds, who was baptised on the 13th February 1740, at Holybourne, near Alton Hants. Two earlier children in her family were baptised there, but it appears that the younger siblings were baptised at Yateley and at least two of her sisters were also married at Yateley.

It is quite probable that the first few children of 04876 Thomas Goddard and 04877 Sarah have yet to be identified, it may be noted that there is no "Thomas" or "Sarah" amongst their children and a *"Hannah"* acts as witness at least one wedding in the family. Not only that, but what was apparently their first child was not baptised until nearly 7 years after they were married. Additionally, there are Goddards in the area later, with seemingly the right names and approximate ages to be members of this family, who have not been accounted for from known baptismal records and who could, possibly, be the unrecognised earlier children from this marriage.

The first known child was 07608 John, who was variously referred in parish registers during periods of his life as, *"of Windlesham"* when he married, *"of Cove"* when the children were baptised, and *"of Frimley"* when he was buried. 07608 John was baptised at Farnborough on the 16th October 1769, he was married 07609 Sarah Martin at Yateley on the 24th July 1794 They had had two children before 07608 John died of smallpox, he was buried at Farnborough on the

14th February 1796. 07619 Sophia was born at Yateley on the 22nd December 1794 and baptised there on the 24th January 1795 and it is almost certain that it is she is the Sophia Goddard who was buried at Finchampstead on the 28th September 1877, *"aged 77"*.

07761 John was baptised at Yateley on the 1st May 1796, his line is continued on Sheet 6.

07610 James was baptised at Yateley on the 8th June 1772, he was working as a labourer, according to Yateley parish records, when he married 07611 Mary Wells on the 24th July 1794. One disturbing fact about this wedding is that the only witness from the Goddard family was an unidentified *"Hannah Goddard"*, so are we talking about the correct James Goddard? They are thought to have had 11 children between 1795 and 1814, all baptised at Yateley.

07612 Arthur was baptised at Yateley on the 7th January 1774, he married 07613 Ann Cranham at Yateley on the 25th May 1795. There are only two children from this marriage that we know of at present, both were baptised at Yateley, 07634 Sarah *"of Cove"* in the baptismal register, born on the 6th August and baptised on the 22nd August 1795, and 07635 Benjamina *"of Hawley"* baptised, according to the IGI at Yateley on the 28th October 1796. However, as 07635 Benjamina does not appear in the editors copy of the transcription of Yateley parish registers this entry should be checked against the original. (This may be an error in this transcription as several other errors and omissions have been found).

07614 George was baptised at St Peter's Yateley on the 8th September 1777 and married in the same church to 07615 Elizabeth Alexander on the 12th November 1799. The parish registers refer to 07614 George as a labourer. George and Elizabeth are known to have had 6 children, all baptised at Yateley. 07640 Hannah *"of Cove"* born on the 30th March and baptised on the 1st April 1800, 07636 *"of Yateley"* born on the 6th August baptised on the 29th August 1802, 07639 Mary *"of Yateley"* born on the 28th February and baptised on the 10th March 1805, 07637 George *"of Frimley"* born on the 24th November baptised on the 6th December 1807, 07638 Henry *"of Yateley"* born on the 17th October baptised on the 28th October 1810. Then there is a long gap before 07641 Elizabeth *"of Yateley"* was baptised on the 25th April 1819.

07616 Jeremiah was baptised at Farnborough on the 25th July 1779 – nothing further is known about him at present.

07617 Benjamin was under two months old when he was buried at Farnborough, on the 9th September 1783, having been baptised there on the previous 4th August.

Of the last two children in this group we know nothing, apart from their entries in the baptismal registers, 07618 Ann was baptised at Farnborough on the 3rd December1784, and 08013 Henry, who was born on the 10th May 1879 was baptised at Yateley on the following 8th August at Yateley.

Before identifying the information that is presently recorded for the children of 07610 James and 07611 Mary, nee Wells, it is worth re-enforcing the doubts that have been expressed regarding the continuity of identity of a person when the only documentation available is their entry in the parish records for their baptism and then a possible marriage. This marriage may also be missing and the tree has been completed using the pattern of names from possible off-spring. With this in mind the following warning paragraph has been repeated:-

[This particular sheet, Sheet 3, which should be read in conjunction with Alternative Sheet 2A, has been generated to reflect the differing views between researchers into these trees and in particular the "Thomas's" who married Mary Ives and Mary Mason. Opinion is about equally divided between for Mary Ives or Mary Mason marrying Thomas, the son of 07610, James and Mary, nee Wells, and indeed, which child belongs to which marriage. One should recognise, of course, that from the information available at this time, it is more than possible that neither of these Thomas's is the son of 07610, James and Mary nee Wells, as there is evidence that there were several others named Thomas Goddard born in nearby parishes who could be candidates for these marriages. Note also that there is obvious duplication of the children bearing different computer numbers until their parentage is defined and they can then be correctly allocated.]

07621 John known child of 07610 James and 07611 Mary, nee Wells, he was *"of Hawley"* when baptised on the 6th December 1795 at Yateley, having been born on the 3rd December.

07622 Jane also *"of Hawley"* was born on the 29th October and baptised at Yateley on the 4th November 1797. She married 07948 Charles Dew at Frimley on the 11th October1824.

07623 Mary *"of Hawley"* was born on the 10th August and baptised at Yateley on the 25th August 1799. She married 07949 George Ellis at Frimley on the 14th February 1820.

The next is a repeat of the 07624/08061 Thomas identity problem, this sheet continues on the assumption that he was born in Hawley on the 5th December and baptised at Yateley on the 20th December 1801 and that it is he who married 07625 Mary Mason on the 25th August 1824 at Yateley but was *"of Frimley"* when married and that it is the body of 07625 Mary, nee Mason, that was buried at Frimley on the 19th May 1845. 07625 Mary Mason had been born at Cove on the 19th June and baptised at Yateley on the 17th July 1803, the daughter of Robert and Jane Mason, nee Watts.

About 4 years elapse before any children who are attributed to this marriage are baptised so there may be 2-3 who have not yet been accounted for, all the known children were baptised at Frimley. The first known child was 07651 Ellen baptised on the 8th June 1828.

07642 John was, according to the 1881 census born in Yateley but he was baptised in Frimley on the 9th September 1832, he later married 07631 Hannah and their family is traced on Sheet 13.

07643 George was baptised and buried at Frimley on the 22nd June 1834 and 7th February 1836, respectively.

07644 Fanny was, according to the IGI, baptised on the 15th May 1836.

07645 William, (or 08024 William if mother had been Mary Ives), was baptised on the 1st May 1838. On the 31st August 1862 he married 07646 Charlotte Shurvell in Reading. For much of his life William was a "Cab Proprietor", this business was being run by his widow Charlotte after his death, and burial in Farnborough on the 4th July 1900, according to the 1901 census. Their 7 children and the subsequent tree is listed on Sheet 4. 07646 Charlotte had been born in Aldershot in 1844 according to the information she gave to the various census questions, and it is thought that she died in 1909.

07647 Thomas was baptised on the 12th April 1840, but like his brother James, baptised on the 27th June 1841, nothing further is known about him.

Reiterating the paragraph used earlier for the children of 08014 Mary, nee Ives: *Both the last two children of 07624 Thomas and 07625 Mary, had very short lives and both were buried on the same day, according to the transcription of the Frimley Parish Registers in the IGI, on the 30th July 1845, and only 10 weeks after the burial of their mother, 07649 Joseph had been baptised on the 26th February 1843, (died at about 2½years old), while 07650 Arthur was only about 2 months old when he died, having been baptised on the 1st June 1845.*

Returning to the children of 07610 James and 07611 Mary, nee Wells, 07626 Sarah was born and baptised at Yateley, on the 13th February and the 25th February 1804, respectively.

07627 James was born on the 27th September and baptised at Yateley on the 12th October 1805. He was a labourer in Yateley for most of his life. He married 07953 Martha Giles on the 2nd September 1828, their branch is developed on Sheet 13.

07628 Elizabeth was born on the 15th May and baptised at Yateley on the 7th June 1807 but nothing more is known about her.

07629 William was just over a year old when he was buried, born on the 20th December 1808, baptised on the 15th January 1809, and buried on the 12th January 1810, all these events were at Yateley.

07630 George was born on the 9th October and baptised on the 4th November 1810

07632 Samuel was born on the 20th June and baptised on the 12th July 1812, both at Yateley.

07633 Richard was baptised on the 13th November 1814 in Yateley. He became a licensed victualler in Frimley where his 4 known children were born after he had married 07966 Caroline Smith at Frimley on the 25th November 1843. Caroline had been baptised at Yateley on the 21st July 1822 the daughter of a George and Elizabeth Smith of Hawley. Richard and Caroline were with their two youngest children 07970 Mary and 07971 "Charley" at the Brown Jug Inn, Princess Street, Frimley, Surrey at the time of the 1881 census.

Only 4 children have been identified as belonging to this marriage, but with several long gaps between children there are perhaps more to be found.

07967 William was baptised on the 16th November August 1846 in Frimley William an "Agricultural Labourer", according to the 1881 census, when he was living in Puttenham Surrey, he was also living there in 1901. He married 07968 Pheobe Ellis on the 10th November 1872 at Elstead Surrey where she had been baptised on the 26th October 1845, she was the daughter of William and Hannah Ellis, nee Roe. Their branch is continued on Sheet 13.

07969 George was baptised at Frimley on the 8th May1849, he has not been found in the1881 census, but it appears that in 1901 he is the George Goddard who is working in Frimley as an "estate carpenter".

07970 Mary was born in Camberley and baptised on the 13th November 1863 at York Town, while 07971 Charles (Charley) was born, according to the 1881 census, in 1874 in Frimley.

Sheet 4

This sheet follows the branch emulating from either Sheet 2A or Sheet 3 by the marriage and subsequent children of 08024/07645 William Goddard and 07646 Charlotte Shurvell. William was a Cab Proprietor according to the census returns. He was baptised on the 1st June 1838 at Frimley, Charlotte, the daughter of Thomas and Jane Shurvell, was baptised at Aldershot on the 2nd July 1843, they married at Reading on the 31st August 1862, but all their 8 children were born in Farnborough, according to the census records, the parish records for these baptisms have not been checked.

07652 Arthur William, born about 1863 was married in summer of 1889 in Marylebone London, to 07653 Fanny Huntley, born in Newbury about 1872, only one child of theirs has been identified, she was 07665 Irenie (Nelly) E. baptised at Farnborough on the 24th September 1899. 07652 Arthur William was listed as a Gardener in 1881 and a Cab Driver in the 1901census returns. The family were in Farnborough for the 1901 census. 07653 Fanny Huntley was probably the daughter of Henry and Sarah Huntley who had been born at Burghclere, Hampshire, a small village near Newbury.

06754 Herbert Harvey was a "harness maker" according to census returns With over 3¼ million horses at this time in Britain as a leather worker his was a common occupation[8]. He married 07655 Frances A. Hancock who had been born at Hatherleigh in Devon. She was also loosely attached to the leather trade, in that in 1881, aged 20, she was a housemaid in Lambeth in the house of a *"Upholsterers Trimming Manufacturer"* who employed over 80 people. Frances and Herbert married on the 29th October 1888 in Farnborough where both of their known children were born and the family were living in 1901. 08051 Gladys A. was born in about 1889, while 07666 Ivy Lilian was baptised at Farnborough on the 2nd August 1891. Herbert died, aged 83, in Farnborough as did his wife Fanny, aged 89.

07656 Charlotte Jane, born at Farnborough, in about 1862 she also married into the leather trade by marrying a shoe maker, 07657 Charles Harding at Farnborough on the 25th October 1893, he had been born in Eltham, London. Their family were living at Kingston on Thames in 1901.

07658 Louisa Ellen is reported to have married 08074 William Payne, but neither have been found on the1901 census.

07659 George Frederick was a Cab Driver, baptised in Farnborough on the 21st August 1870, he married "Florinda" but this is thought to be a pet name for 07660 Florence Wholley who had been born at St Mary le Strand London in about 1869. The marriage has not been found and therefore her maiden name is in some doubt, if it was indeed "Florence" or "Wholley" then her parents were, according to the 1881 census in Paddington, a William Wholley a *"Superannuated Police Officer"* and Maria. 07659 George and 07660 Florence are known to have had 3 children, 07667 William George, 08053 Doris Eva, and 08054 Herbert Norman. 07659 George Frederick was buried at Farnborough on the 23rd September 1922.

07661 Henry was baptised at Farnborough on the 7th April 1872 at the 1901 census he was a Cab Driver living in Farnborough. Henry was married at Farnborough to 07683 Alice Page on the 17th of November 1904, she was a widow aged 40 at that date and there were no children.

07662 Charles Samuel was another cab driver in this family of cab drivers, he was in Farnborough for the 1901 census and it is reported that he later married 08056 Anne Jane, surname name not known, and that they had 2 children, both were baptised at Farnborough, 08057 Elsie May on the 18th August1909 and 08058 Charles Henry on the 26th June 1911.

07663 Edwin Cecil was baptised at Farnborough on the 1st October 1881, although he is shown as living in Farnborough for the 1901 census his employment is not shown in the index. He married 07664 Ivy Beaufoy Ridgers on the 22nd February 1908 at Farnborough and they had 4 children.

07667 William George was the first child of 07659 George and 07660 Florence, he was baptised on the 20th March 1898. William married 08052 Queenie Sophia Noon who had been born in Battersea London in about 1899, she was the youngest daughter of William J. and Florinda Noon. Only one child is known from this marriage, that was 08059 Dennis (nicknamed Jack) who married 08060 Beryl M. Lee.

08053 Doris Eva is known to have married 08137 Dudley Arthur Jones, born about 1896, and possibly one of the two Dudley Jones both found in London in 1901 and who were of the appropriate age.

08054 Herbert Norman was baptised in Farnborough on the 4th February 1812 and it is known that he married 08055 Phyllis Alma Stare but there were no children. He was a bus driver in 1940.

07668 Edith Ellen Charlotte had one child, 07669 Eileen sometime before she married Eric Ireland, they went on to have five other children. The daughter 07669 Eileen married 07683 John Morris.

07671 William Henry Cecil Goddard born in 1912 married 07672 Nellie Webber, they had two children 07676 Edith (May) who married 07677 John Warner, they had 4 children. 07678 Ernest Henry married 07679 Coleen May Archard and they had 3 children 07680 Ceri Nanly Goddard, 07681 Sian Merryn Goddard, and 07682 Daniel Barnaby Goddard.

07673 Louisa Elizabeth Beaufoy Goddard was born in 1914 in Farnborough.

07674 Albert George married 07675 Dorothy but her maiden name is not available at this time, they are known to have had one child Colin.

8 www.walsall.gov.uk/leathermuseum

Sheet 5

This branch is continued from Sheet 2 but also involves persons from Sheet 7 and Sheet 11

04875 John, the first son of 03172 John and 03193 Anne, nee Smither was baptised at Yateley on the 3rd August 1739, he married, firstly, 05313 Elizabeth Williams at Yateley on the 17th November 1865. 05313 Elizabeth, the daughter of John and Elizabeth Williams had been baptised on the 31st March 1734, also at Yateley.

(See Sheet 11): After 6 children, all baptised at Yateley, 05314 Hannah on the 21st January 1766, 05315 Sarah on the 26th December 1767, 08168 Mary baptised on the 7th October 1769, 08169 John baptised on the 13th September 1771, 08170 Elizabeth baptised on the 5th February 1774, and lastly, 08172 Ann was baptised on the 21st October 1775. The only further information that has been found for this family, so far, is that 08170 Elizabeth was married at Yateley on the 31st October 1795 to 08171 James Searl.

05313 Elizabeth died in about 1776, but her burial has not yet been found.

04875 John remarried, this time to 07697 Sarah Marlow, who was almost part of the family anyway as she had had an illegitimate child, 07747 Nicholas, by John's younger brother 04879 Nicholas in 1774. 07697 Sarah was the daughter of James and Sarah Marlow and she had been baptised on the 13th February 1753 at Yateley, where she married 04875 John Goddard on the 2nd May 1781.

04875 John and 07697 Sarah had 8 children that we now know about. The first, 07946 Thomas was baptised at Yateley on the 3rd April 1783, he married 08184 Catherine Watson in the same church, on the 8th February 1808, all their known children, 6, were girls and all were baptised at Yateley. 08185 Hannah, baptised on the 1st May 1808, but was buried less than a fortnight later, on the 13th May 1808. 08186 Jane was baptised on the 18th June 1809, 08187 Anne on the 17th November 1811, 08188 Sarah on the 6th February 1814, she was buried at Yateley on the 20th July 1831. 08189 Elizabeth was baptised on the 17th November 1816 and lastly Mary was baptised on the 27th February 1820.

07698 George was born on the 24th June and baptised at Yateley on the 17th July 1785 and *"registered"* the following day. George, a labourer, was married to 07703 Charlotte Ridgers at Yateley on the 5th November 1811. Charlotte was the daughter of John and Sarah Ridgers, nee Chapman, born in Hawley and baptised[9] at Yateley on the 7th October 1792. 07698 George and 07703 Charlotte are thought to have had 7 children, the first 07710 Alice was born on the 6th October 1811, just a month before her parents were married, although her baptism at Yateley on the 3rd May 1812 was probably delayed to ensure a note regarding her illegitimacy should not appear in the register. She lived less than a month after her baptism being buried on the 3rd June 1812.

[Editors Note:- A note of caution should be introduced here as a result of rechecking, by the editor, of the information given to him by the original tree:-

On the information available, it is more likely that the *"George Goddard"* was 07686 George from Sheet 6 the son of James and Ann Goddard, nee Williams. The reasoning is that although both Georges had sisters named *"Maria"* only 05309 Maria, the sister of 07686 George from Sheet 6 could be the *"Maria Goddard"* who was witness to the marriage on the 5th November 1811, the other Maria, 07699 Maria, had been 07699 Maria Siggery for 6 years Additionally, there is no apparent reason for 07698 George to name a son *"James"*, whereas the father of 07686 George was 04878 James and so he would have had very good reason to reuse the name of James. It is probable that this family would have to be moved to Sheet 6, if further research confirms this suspicion.]

07711 Maria was born at Yateley the day before the funeral of her sister, 07710 Alice, on the 2nd June 1812 and baptised the following 2nd September. She also had a very short life and was buried at Yateley on the 20th February 1814.

07712 Charlotte Anne was baptised at Yateley on the 12th February1815, but nothing further is known about her life.

07713 George was baptised at Yateley on the 11th May 1815 and he was married there on the 28th February 1835 to 07714 Sarah Hedgecock but, apart from one son who died young, nothing is known about the family. Their son 07780 James was baptised, according to the IGI, at Cove on the 27th April 1847 and buried there on the 7th July 1855. [Editors Note: Cove had been split from the parish of Yateley in 1838 to form a parish in its own right.]

Nothing is known about 07715 John or 07116 Sarah Jane other than the entries in the Yateley baptism register for the 9th May 1819 and the 29th July 1821, respectively. 07717 James was baptised *"privately"* at Yateley on the 8th February 1824, so perhaps he was not expected to live long, but no burial has been found for him.

Returning to the children of 04875 John and 07697 Sarah, 07699 Maria was born on the 11th December 1786 and baptised at Yateley on the 5th April 1787, on the 23rd December 1805 she married 07701 James Siggery. The Siggery families are nearly as numerous as the Goddard families in the Yateley area and this is one of several intermarriages of these family names in the area. [Editors Note: There is a large collection of documents in Hampshire Record Office Winchester, of various land transactions covering many years coupling the names of Siggery and Goddard together in this vicinity, but they have not been investigated and therefore may, or may not be, relevant to members of these trees.]

9 This record does not appear in the Yateley Parish Register transcripts but it is on the IGI from their investigation of the original registers.

07700 Olive was born on the 7th May and baptised on the 4th June 1789 at Yateley she married 07702 Thomas Maidon at Yateley with her brother 07946 Thomas and her sister 07699 Maria Siggery as witnesses to the marriage.

07731 Samuel was born on the 19th August and baptised on the 10th October 1791 at Yateley, he married on the 18th May 1818, also at Yateley, a namesake in 07732 Ann Goddard, but her parentage and other details have not yet been found. However, there are two obvious possibilities, firstly she could have been the daughter of 04878 James and 05303 Jane Goddard, nee Williams, 05308 Ann baptised at 30th August, 1791, or secondly the daughter of 03201 Holland and 03202 Mary, nee Calloway, 07771 Ann was baptised on the 18th October 18 1791, but she may have been neither of these. The only two children found for this marriage, both baptised at Yateley, were 07863 Thomas *"of Hawley"* on the 11th June 1820 and 07864 George *"of Hawley"* on the 24th April 1825 and nothing further is known about this branch.

07733 Jane *"of Hawley"* was born on the 3rd December 1792 and baptised on the 26th January 1793 at Yateley, she was married on the 11th January 1812 to 07734 John, a local man, the son of Samuel and Mary Kingston, nee Knaper, he had been baptised at Yateley on the 12th July 1785.

07703 Frances *"of Hawley"* was born on the 26th April and baptised on the 27th June 1795 at Yateley where she was also married, on the 19th July 1814, to 07704 David Palmer who was possibly from Farnborough

07735 David *"of Hawley"* was born on the 19th April and baptised on the 9th June 1797 at Yateley where he was also married, on the 10th November 1821, to 07736 Elizabeth Moss, although a local surname her birth and parents have not been found. David classified in Yateley parish records as a *"labourer"* until the baptism of his son 07869 James 1830, when he was a *"Shoemaker"* later he was called a *"cordwainer"*.[10] He and Elizabeth had 11 children, all were said to be *"of Hawley"* when they were baptised at Yateley. At the time of the 1881 census 07735 David, a widower, was living with one of his youngest children 07876 George, also a cordwainer, and his family at Crondall.

07865 Frances was baptised at on the 23rd June 1822, she was married to 08191 Charles Thomas Howard at Yateley on the 22nd May 1843.

07866 Sarah was baptised on the 24th October 1824, she married James Chitty, born in Cove in 1822 and a farmer. In 1851the census reveals that they farmed 20 acres with a daughter Ann aged 4 and the help of brother-in-law 07868 David Goddard. In 1861 it was 26 acres and 5 children, in 1871 the farm had grown to 33 acres and the family to 8 children. It was a similar situation in 1881, except that James had died and Sarah was now the farmer, the farm was still 33 acres and four of the children were working on the farm. By 1891 Sarah had also died and the farm was apparently being run by her eldest daughter and two of her sons.

07867 Eliza was baptised on the 8th October 1826, but nothing further is known about her.

07868 David was baptised on the 8th October 1826. He was working in Yateley as an Ag. Lab. in 1851, but he has not been found in the 1881 census.

07869 James was baptised on the 21st March 1830, 07870 William on the 11th March 1832, and Anne on the 30th March 1834, all were *"of Hawley"* when baptised, but no other records have been found for any of them.

07872 Thomas was baptised on the 26th February 1837 according to the 1881 census he was an agricultural labourer with a wife 07873 Ann, maiden name unknown, who had been born in Crookham Hants in 1842, and 4 of their 5 known children. Most of the information on the children give here comes from the IGI and the 1881 census. All the children had been born and baptised at Hawley, 07881 Elizabeth Caroline baptised on the 27th December 1863, 07882 Charles Thomas, (known as Thomas), on the 28th January 1866, 07883 George on the 29th December 1867, (died young? not found on 1881 census, but no burial found either), 07884 Alice Ann, (Annie), on the 27th October 1872. The last known child for this family was 07885 Arthur born in about 1875 he is found on the 1901 census working as a labourer in Cove.

07874 Rebecca was baptised on the 24th March 1839, she had a daughter 08001 Elizabeth Rebecca who was *"born out of wedlock"* on the 24th March 1861 at Fleet Hants., in 1881, 08001 Elizabeth Rebecca was a domestic servant in Crondall where she was married on the 28th May 1887 to 08202 James William Dow, who had been born at Woolwich Kent in 1664, he was a *"Smiths Labourer"* in Old Windsor in 1881. Her mother, 07874 Rebecca, married 07875 James Maynard an agricultural labourer who had been born at Crookham in 1844. In 1881 this family, which then included their 6 children, aged between 1 and 12 years old, were living at Cove.

07876 George was baptised on the 15th August 1841, according to the 1881 census for Crondall, he was a general labourer married to 07877 Ann, nee Lord, from Crookham Hants., and two children who were both born in Fleet, 07879 Alfred born in about 1872 and 07880 William born in about 1873. In 1901 William was a carpenter in Fleet Hants while Alfred was a bricklayer in the same town and probably both were married, one to Henrietta and one to Mildred but which to which wife has yet to be determined. It is reported that 07880 William and 07879 Alfred started the builder's merchant and undertaker's business in Fleet, Hants, that still bears their name in 2004.

10A cordwainer was a worker in leather, usually, but not necessarily, a shoe maker.

07878 Charles *"of Hawley"* was baptised at Yateley, as were all the previous children of this family, on the 7th July 1844. In the 1881 census he is unmarried and employed as a "manservant" at "Near Well College" Sandhurst, Berkshire, a school with 30 male boarders between the ages of 10 and 18 years old.

However, there is the possibility that there was a further son, a second one named 08151 David who was born at Crondall in 1845 who became a storeman in London and is found at 4 Motley St., Battersea in 1881 with his wife 08152 Rosetta, who had been born at Wandsworth London, a dressmaker, and their 8 year old son 08153 *"Willie"*, who had been born at Clapham. By the time of the 1901 census 08151 David is *"retired foreman from Army & Navy Stores London"*, living with Rosetta in Fleet Hants., while 08153 *"Willie"* is now *"David Goddard a clerk & stock keeper, athletic goods"*, residing in Clapham London. However, more work will be required to show the true relationship, if any, of this group to the rest of the branch, or even sheer coincidence.

Sheet 6

This branch is continued from Sheet 2

04878 James is thought to be the third son of 03192 John and 03193 Anne, nee Smither, he was baptised at Yateley on the 27th April 1744. He married 05303 Jane on the 22nd October 1773, she was a daughter of Allen and Mary Williams, nee Innis, who had been baptised on the 29th November 1752, also at Yateley. However, their family life together started some years earlier, as the Yateley records show with the baptism on the 18th December 1770 of 07705 John, *"the illegitimate son of James Goddard and Jane Williams"*. This was followed by the record of the baptism on the 30th January 1773 of 07707 Jane, *"the illegitimate daughter of James Goddard and Jane Williams"*. Following their marriage in 1773, 04878 James and 05303 Jane are thought to have had 11 further children, however there is a gap between their marriage and the first of their known legitimate children that may mean that there are other children yet to be found. 04878 James and 05303 Jane were both buried in Yateley churchyard, having died at Hawley, James was buried on the 30th June 1819 and Jane on the 21st April 1839.

07705 John is thought by some researchers to be the John Goddard who married Ann Woolveridge at St Peter's Yateley on the 15th October 1796, although from the information available at this time, it could have been 08169 John the son of 04875 John and 05315 Elizabeth Goddard, nee Williams, see tree Sheet 11.

08192 James is a mystery it is only because he is mentioned in his fathers will dated 22nd May 1819 that we know of his existence, however, very few of the Yateley baptisms were recorded between 1792 and 1798, the period during which 08192 James would have been born and baptised, if the order of the children listed in the will is the order in which they were born.

The next 3 children were all *"of Cove"* when they were baptised at Farnborough, 07685 Thomas was baptised on the 25th January 1779, he was married on the 28th September 1817 at Yateley to 08193 Jane, who was probably the daughter of Arthur and Jane Knight, nee Cook, of Cove, and it is he who is supposed to be the Thomas, aged 45, who was buried at Yateley on the 18th May 1823.

07686 George was baptised on the 3rd December 1780 and 05304 William on the 13th April 1783, but it had been suggested in his father's will that William had married before the will was written in 1819, but nothing that is substantiated is known about about either George or William. [See the editors earlier note regarding the possible marriage of 07686 George in the Sheet 5 personal histories.]

It is possible that it was 07685 Thomas who married Catherine Watson at Yateley on the 8th February 1808 when a William Goddard was a witness, and not 07946 Thomas see Sheet 5 and its notes . There were at least 6 children from this marriage, all girls. However, more research will be needed for confirmation this specific marriage.

05305 Sarah was born on the 2nd December and baptised at Yateley the following day, the 3rd December 1785, but she only lived for a fortnight and was buried, where she had been baptised, on the 19th December.

The next child was also named 05306 Sarah, she was born on the 5th March and baptised on the 12th March 1787 at Yateley, where she was also married, on the 22nd December 1804, to 05312 Charles Brown, a carpenter who had been baptised in Yateley on the 2nd March 1781.

05307 Peter was born on the 18th March and baptised at Yateley on the 11th April 1789. Peter died just over 20 years later and was buried at Yateley on the 17th June 1809.

05308 Ann born on the 14th August and baptised at Yateley on the 30th August 1781. Other than the fact that it is she who married 08196 William Sands at Yateley on the 5th January 1811 nothing is known about her life.

05309 Maria *"of Hawley"* was born on the 17th March and baptised on the 29th March 1794, she married 08195 Henry Smither, according to her fathers will, but no other information is presently available. Similarly for 05310 Elizabeth, born on the 28th March and baptised at Yateley on the 4th April 1796, she married 08194 Stephen Crane, but nothing further is known.

05311 Arthur *"of Hawley"* was born on the 19th January and baptised at Yateley on the 24th January 1798. He was married at Yateley on the 1st December 1821 to 07720 Sarah, the first child of William and Ann Watts, nee Lambeth, she had been born at Hawley on the 3rd January and baptised at Yateley on the 7th January 1803. They had 10 children, all were *"of Hawley"* when their baptisms were entered in the Yateley register and their father was labelled as a *"labourer"* at the same time. Although Arthur did not marry until 1821 his father, who died in 1819, appears to imply in his will that Arthur was already married.

07721 Sarah was baptised on the 24th February 1822, but was buried only 6 weeks later on the 7th April 1722.

07722 Jane was baptised on the 8th February 1824, but nothing further is known about her.

07723 William was baptised on the 24th June 1825 and it is known from the entry in the 1881 census when he is in Yateley visiting a cousin, Jane Williams, that he is a widower. However there is no information on his deceased wife or any family that they may have had. However, a William is reported to married a Caroline Soan (Sone) at Yateley on the 18th April 1846 and 4 children, all girls are subsequently shown on the IGI as having been baptised in Cove and Yateley, over the years 1846 – 1854, to a William and Caroline. 07723 William died at Yateley Union Workhouse and was buried on the 24th July 1883.

07724 Thomas was baptised on the 28th September 1828, but nothing further is known about him.

07725 Elizabeth was baptised on the 17th October 1830 but was buried on the 7th January 1836 with the added entry in Yateley the burial register *"by Coroners Inquest was accidentally burnt to death"*.

Little is known about the last 4 children except from the entries in the Yateley registers. 07726 Mary Jane is entered for both her baptism on the 26th May 1833 and her burial on the 23rd June 1636, 07727 Arthur was baptised on the 19th July 1835, James on the 18th June 1837, Ellen on the 6th October 1839, and 07730 Sarah who was baptised on the 14th August 1842.

The small sub tree is a continuation from Sheet 3 for the family of 07761 John who was the only son of 07608 John and 07609 Sarah Goddard, nee Martin of Cove. He was a shoe maker and had been baptised at Yateley on the 1st May 1796 and he was married there on the 16th January 1834, to 07950 Elizabeth the daughter of William and Elizabeth Bunch, nee Bunce, who had been born at Yateley on the 3rd February 1808 and baptised on the 6th March following.

Only 2 children are known from this marriage both baptised in Yateley, 07980 Mary Ann baptised on the 8th February 1835, and 07981 Sarah baptised on 30th April 1837, but nothing further is known about the family.

Sheet 7

This sheet is a continuation from Sheet 2 and Sheet 5

Here the main complication is the relationship between 07697 Sarah Marlow, 04875 John and his younger brother 04879 Nicholas, which is contained in a few words in Yateley baptismal register *"22nd July 1774 Nicholas illegitmate son of Nicholas Goddard and Sarah Marlow baptised"* This birth is just 5 months before 04879 Nicholas was married to 05444 Patience Hopkins. As we see from Sheet 5 04875 John was widowed in about 1776 but did not marry 07697 Sarah Marlow until 1781. Because the "base-born" son, 07747 Nicholas, married and raised his family in Finchampstead, then it almost certain that he was brought-up there and that it was his father, 04879 Nicholas, and his new wife, 05444 Patience, who raised Sarah Marlow's child in Finchampstead to be joined, in time, by their own 10 children. 04879 Nicholas was buried on the 14th June 1826 aged 80.

07747 Nicholas was married on the 6th October 1798 to 07748 Elizabeth the daughter of John and Elizabeth Furness, who had been baptised at Finchampstead on the 23rd February 1777. 07747 Nicholas and 07748 Elizabeth are known to have had 8 children who were all baptised at Finchampstead. Probably the first, though this is not not certain, was 07749 James who was baptised on the 10th August 1800, his family is continued on Sheet 11.

07750 George was baptised on the 13th February 1803 nothing has been found to add detail to his life until the entry in Finchampstead register for his burial on the 24th July 1875, so it is not yet known whether he married and had a family or not.

The baptisms of 07751 Mary on the 19th May 1805 and of Elizabeth on the 31st January 1808 is the only knowledge of their existence we have at present.

07753 William Nicholas baptised on the 2nd December 1810 and 07754 Sarah baptised on the 16th April 1813 both appear to be recorded in the 1881 census in Finchampstead, as seen below:-

	Marr	Age	Sex	Birthplace
Mark GODDARD	W	43	M	Finchampstead, Berkshire, England
Rel: Head				
Occ: Gardener (Dom Svt)				
Nicholas GODDARD	W	76	M	Finchampstead, Berkshire, England

Rel:	Brother				
Occ:	Carpenter				
Sarah GODDARD	U	73	F	Finchampstead, Berkshire, England	
Rel:	Sister				
Occ:	Visitor				
Eliza STEPHENSON	W	57	F	Finchampstead, Berkshire, England	
Rel:	Sister				
Occ:	Householder				

but more work will be required to confirm this and establish the true relationship with Mark and Eliza Stephenson, but note that "Nicholas" is a widower, as is Mark, and that "Sarah" is unmarried. [The slight discrepancy in the ages given can be ignored as being typical of the errors, some deliberate, found in the census returns, the occupation and place of birth are usually the more reliable of the "facts" given in any of the census records, but these are not necessarily "true" either. Relatives are generally at their most unreliable when giving personal detail information about their close family. Now detail about scandal, that's different!] 07753 William Nicholas is almost certain to be the *"Nicholas Goddard aged 77"* who was buried at Finchampstead on the 7th November 1882.

Neither 07755 Thomas baptised on the 14th January 1816, nor, 07756 Henry baptised on the 14th February 1819, have been found in documentation other than their records in the Finchampstead baptismal register.

04879 Nicholas was married to 05444 Patience Hopkins at Eversley on the 26th December 1774 when Nicholas was probably already living at Finchampstead where all their 10 children were baptised.

The first child of this marriage was 05448 Nimrod, (not an uncommon name in this area, but no Goddard family associations have yet been found). He was baptised on the 8th October 1775 and married in the same church on the 1st February 1798 to 05449 Ann, the daughter of Cornelius and Elizabeth Bartlett who had been baptised on the 25th March 1764. Their only family appears to be 2 sons, there may be other children to be found, but this is unlikely considering Ann's age of 34 when they married. their first son 05469 James was baptised at Finchampstead on the 3rd May 1800 but little is known about him other than he married 07922 Elizabeth Smith at Finchampstead on the 14th February 14th February 1825 and that there was only known child, 07923 Charlotte who was also baptised there, on the 25th June 1825. The second son of Nimrod and Ann, 07757 Thomas, is only known from his baptism recorded on the 18th March 1802. 05448 Nimrod died in Wokingham Union Workhouse and was buried on the 13th August 1855.

05450 Timothy only lived for about 10 weeks. He was baptised on the 12th May 1777 and buried on the 3rd August the same year.

The next son was given the same name, but he did rather better from life, 05451 Timothy was baptised on the 19th April 1778, he married twice and fathered 9 Children. His branch is continued on Sheet 11.

05452 Patience was baptised on the 2nd May 1779, on the 10th June 1797 she married 05453 Cornelius Bartlett the son of Cornelius and Elizabeth Bartlett, who had been born in 1771. This means of course that when 05448 Nimrod married Ann Bartlett he had married his own sister-in-law!

05454 Mark was baptised on the 13th August 1780 he was married on the 11th April 1801 at Eversley to 05455 Sarah Alexander. Remarkably, they did not appear to start their family for nearly 9 years, unless there were earlier children who were baptised at Eversley, as these parish records do not appear to have been checked for these possible baptisms. All known children from this marriage were baptised at Finchampstead church.

Apart from the records of their baptisms nothing is known regarding the lives of the first three children. 05467 Elizabeth was baptised on the 22nd October 1809, but it must be assumed, without contradictory evidence, that she died young because the next daughter, baptised on the 15th July 1810, was named 05466 Eliza. The first son appears to be 05462 Mark who was baptised on the 3rd May 1812. He does not appear to be registered in the 1881 census, but who then is the *"Mark Goddard aged 65",* (i.e. born circa 1826), who was buried at Finchampstead on the 6th November 1891?

[Editors Note:-The age of a person given in the burial registers should be treated with a great deal of caution because, to a parish clerk, a sprightly 80 year old and an arthritic 60 year old person can be very similar, when their age has to be guessed to complete the burial record form. Relatives can be equally hazy when asked the age of their spouse for instance, one only has to look at the age jumps of a particular person, from census to census, particularly when one partner has died and the other is having to answer the questions posed by the enumerator for the first time in their life.]

The next child was 05463 Patience was baptised on the 19th December 1813 and married to 05464 John Wass on the 30th March 1834, both events were at Finchampstead.

05465 Charles was baptised at Finchampstead on the 9th July 1815, but he was married at St. Giles church in Reading on the 8th August 1854 to 07905 Elizabeth the daughter of William and Elizabeth Brown, nee Petty, who had been baptised at St Giles Reading on the 9th July 1821. Their branch of the tree is continued on Sheet 11.

05468 Harriet is thought to be the last child of 05454 Mark and 05455 Sarah, she was baptised on the 25th March 1821, but nothing further is known about her at present.

05454 Mark was buried at Finchampstead on the 21st August 1859.

Just two years after 05454 Mark, 05456 Owen was baptised, on the 25th August 1782, he was married 05457 Sarah Husband at Overton Hants., on the 7th January 1802, their large family is followed on Sheet 10.

05458 Isaac only lived for a few days, he was baptised on the 6th February, but he was buried, also at Finchampstead, on the 17th February 1785.

05459 Jeremiah was baptised on the 13th February 1789, he was married also in Finchampstead on the 4th November 1814 to a cousin, 05460 Mary the daughter of William and Jean Hopkins, nee Marshall. Their branch of the tree is continued on Sheet 12.

05461 Keziah was baptised on the 13th February 1791, but unconfirmed reports indicate that she died in 1795.

07920 Ann, whose baptism has not been found is thought to have been born about 1792. She is said to married 07921 Richard Weston of Blackwater on the 11th November 1832, but nothing more is known.

The burial of 04879 Nicholas has not been found in the current research, but it is known that 05444 Patience nee Hopkins, was buried at Finchampstead on the 18th July 1811.

Sheet 8

This branch is continued from Sheet 2 picking up with 03209 James the son of 03201 Holland, (alias Howell) and 03202 Mary Goddard, nee Calloway.

03209 James was born on the 18th December 1793 and baptised a month later on the 18th January 1794 at Yateley, where he also married Jane Coffee on the 3rd November 1821. 03209 James was a labourer he and Jane lived at Hawley where they had 9 children all of whom were baptised at Yateley.

03211 James was baptised on the 3rd of November 1822, but nothing more is known about him.

03212 John was baptised on the 12th September 1824, he married 03213 Harriet Voller at at Elvetham on the 21st March 1846. He was at the time of the 1881 census a publican at Yateley Common (Starve Acre) with Harriet and most of their 8 children. However, 10 years on, the 1891 census shows him a widower. 03213 Harriet had been buried at Yateley on the 31st July 1883, and he was now working as a general labourer and living with his son 07800 William, still in Yateley, but now at Darby Green.

The next two children are only known from their baptismal records, 03214 William, on the 16th April 1826, and 03215 Jane on the 30th March 1828.

03216 George was baptised on the 8th November 1829, but then nothing is known about him until the 1861 census when he is an agricultural labourer living in *"Yateley Common Poor House"* with his wife 07786 Caroline, from "London" and their 1 year old son 08076 Frederick. By time of the 1871 census they have moved to *"Farm House"* Yateley and the family now includes 3 more boys baptised at Hawley, according to the IGI, 07787 George, baptised on the 20th April 1862, 07788 James baptised on the 14th June 1865 and 07789 Charles on the 29th December 1867. The family are at *"Bourne Farm"* Yateley for the 1881 census, all except 08076 Frederick who is at *"Her Majesty's Prison"* St Faith, Winchester, while the family has increased by 07790 William, baptised on the 4th July 1871 at Yateley and 07791 Louise born in 1874. In 1881 07787George and 07788 James are still living at home, but George is now a *"bricklayers labourer"* and 07788 James is working as an agricultural labourer, possibly along side his father. However, there is a problem with 07786 Caroline as she was consistently listed in the various census returns, over a 40 year period, as being "from London Middlesex", but is thought by previous researchers to be the Caroline Kelsey who married to 03216 George at Yateley on the 17th March 1859 and the daughter Thomas and Mary Kelsey, baptised in Yateley on the 27th January 1833. However, has she been mixed up with the Caroline, daughter of James and Elizabeth Kelsey, who was born on the 26th January 1834 and baptised at St Mary Le Strand London on the 21st February 1836? The two Carolines were possibly cousins and both originally from the Yateley area, but which one married 03216 George?

By 1891 the family have moved from the Yateley census area. In the 1901 census the family is fragmented and only three of the sons have been identified, 07787 George is a general labourer in Yateley, while both 07788 James and 07789 Charles are working in Teddington as bricklayers labourers.

The next three children, all girls are again only known by the record of their baptisms, 03217 Mary Ann on the 2nd October 1831, 03218 Martha on the 30th November 1834 and 03219 Louisa on the 30th April 1837.

However, the last daughter, really made here mark as the black sheep of the family, but she probably had a very kind heart. 03220 Lucy was baptised on the 8th March 1840, but she was just 17 when she had her first of her 4 illegitimate children, three of whom were baptised at Cove, 07738 William Edwin Goddard on the 26th April 1857, then came 07739

Ellen Louisa Goddard baptised on the 28th November 1858 and then 07740 William Vale Goddard baptised on the 26th July 1863. Then there was the baptism of 08143 Alice Osborn Goddard baptised at Hawley on the 6th September 1863. As there are no fathers named directly one could suspect the worst case that there were at least three different men in her life up to that time. No proof has been found yet but, from the 1881 census records, there is the possibility that she is the Lucy of Hawley who had married George Pickett and that their son William Pickett started off life as William Vale Goddard, just the possibility. And while musing and very short of facts, who were the parents of the Louisa in the 1881 census record:-

Dwelling: Cripley
Census Place: Cove, Hampshire, England
Source: FHL Film 1341306 PRO Ref RG11 Piece 1252 Folio 24 Page 11

	Marr	Age	Sex	Birthplace

George GODDARD		4 m	M	Cove, Hampshire, England
Rel: Son				

surely this could not be **the** 07739 Ellen Louisa Goddard, daughter of 03220 Lucy? The age is certainly close enough.

03221 John the first son of 03212 John and 03213 Harriet Goddard, nee Voller, was baptised, according to the IGI, at Hawley, on the 27th June 1847. In the 1881 census returns he is aged 33 unmarried and still living at home in Yateley, he was then employed as a *"general labourer",* in the 1901 census returns he was a *"farm labourer"* in Hawley.

07792 Ann was baptised on the 26th August 1849, at the time of the 1881 census she was married to 07793 Albert J. Puddick, a furniture porter and living in Guildford. She later married a widower, 07794 David Stubbings a labourer who had been born in Cambridge.

07795 Harriet was baptised on the 28th March 1852 at Cove, she married 07796 Henry J. C. Gilham an inkeeper who had been born in Clerkenwell London in 1849, but, a year after the birth of their first child, Edith, baptised on the 15th December 1878, Harriet died and she was buried on the 9th December 1879. At the time of the 1881 census 07796 Henry was running the Tartar Inn at Cobham, while daughter Edith was being looked after by her aunt 07792 Ann Puddick in Guildford. Edith is reported to have later emigrated to New South Wales Australia.

07797 James was born at Hawley and baptised at Cove, on the 30th April 1854, he was unmarried at the time of the 1881 census and working as a domestic gardener. He later married 07798 Ruth Mills who had been baptised at Goring on the 18th May 1857 and at the time of the 1881 census was living in Reading with an aunt and working as a dressmaker. After their marriage 07797 James and 07798 Ruth move to Ascot where their 5 children were born and baptised. James was buried on the 20th March 1900 while Ruth lived for another 50 years being buried on the 24th May 1951 at Ascot. Strangely, none of family, Ruth or any of the children, have been found in searches of the 1901 census, so far.

07799 Thomas was baptised on the 25th March 1857 and married 07810 Elizabeth, the daughter of George and Ellen Grinham, at Elvetham on the 22nd October 1880. At the time of the 1881 census he was coachman lodging in Hawley with Elizabeth who was expecting the first of their 2 known children. 07823 Harold George was baptised at Hawley on the 12th July 1881, he said at the time of the 1901 census that he had been born at Blackwater, but this is probably an error on his part. 07825 Nora was born in Blackwater and probably baptised there too, circa 1883, however this register has not been investigated for this baptism. 07799 Thomas and 07810 Elizabeth were in Cove in 1901, where Thomas was working as a *"general labourer"* according to that years census return. Thomas is reported to have died in December 1938 at Blackwater.

07800 William, born at Hawley, was baptised at Cove on the 25th September 1859, he has not been identified in the 1881 census, but for the 1991 census he back is living with his father in Darby Green Yateley and working as a groom. But in 1901 he is recorded in that census living in Cove and *"living on own means"*.

07801 Arthur was also born at Hawley and baptised at Cove, on the 25th May 1862, at the time of the census he was a general labourer living with the rest of the family in Hawley in 1881, and then in 1901 he was a domestic coachman living in Yateley. It is not known if he ever married of not.

07802 Edith was born at Hawley and was baptised at Cove on the 22nd March 1865. In 1881 she was working as a barmaid in her fathers public house. By 1901 it is thought that she had married and she was the Edith Short, married,who was living with a daughter named Elsie in Yateley, but there is no sign of a husband at that date and, as yet, there are no facts to confirm this conjecture.

07803 James Arthur was born and baptised in Ascot Berks., so it is reported, were the other children of 07797 James and 07798 Ruth Goddard, nee Mills. 07803 James Arthur was baptised on the 30th March 1891. He was married at Mortimer Berks. to Rose, the daughter of Charles and Eliza Bushnell, who had been baptised in Mortimer on the 1st August 1890. Very little is known about this family because 07797 James is reported to have been buried at Ascot on the 20th March 1900, and Ruth and her children have not been found in the 1901 census returns.

Of 07805 Edith Mary baptised on the 28th December 1892 and 07806 born circa 1894 but nothing further is known about them.

All that is known about 07807 Thomas Frederick is the record of his death by the Commonwealth War Graves Commission [11].

Name:	GODDARD, THOMAS FREDERICK
Initials:	T F
Nationality:	United Kingdom
Rank:	Private
Regiment:	Manchester Regiment
Unit Text:	1st/7th Bn.
Age:	20
Date of Death:	23/08/1918
Service No:	42683
Additional information:	Son of Ruth and the late James Goddard, of Coldstream Cottage, Sunninghill, Berks.
Casualty Type:	Commonwealth War Dead
Grave/Memorial Reference:	IV. G. 2.
Cemetery:	BAGNEUX BRITISH CEMETERY, GEZAINCOURT

07808 Frank (Pat), was born on the 5th November 1899, he married 07809 Elizabeth Clara White of Wokingham Berks., in about 1922. They are known to have had 2 children, 07828 Phyllis born in about 1923 and Thomas born in about 1829.

07823 Harold George was baptised on the 12th July 1881 and the 1901 census records him as a domestic groom at Winkfield. He is reported to have married 07824 Edith May Flatt, but no further details have been given except the names of their 12 children. As with the lives of many of this branch, no detail about any them has been given to enter onto the database or subsequently onto this tree.

Only 4 of the 12 are known to have married. 07833 Ray Jack Goddard married Eileen Wicks and it is reported that they had 5 children, 07834 Harold married Doris Wickens, 07842 Audrey married William Parsons and had 2 children, 07843 Barbara married Donald Payne.

07825 Nora was born in Blackwater in about 1883, according to the 1901 census return, she is employed as a dressmaker in St Georges Hanover Sq. London.

The tree details all the information that is currently available for the children of 07803 James Arthur and 07804 Rose Goddard, nee Bushnell except that 07814 Hilda Edith Ann married 07814 Stanley Frederick Williams, they had 4 children, while sister 07816 Nora Isabel married 07817 Raymond Norman Southby.

Sheet 9

This branch is continued from Sheet 2 starting with children from the marriage of 07772 Holland and 07773 Eleanor Goddard, nee Moth.

Only the date of the baptism of 07845 Thomas is known for certain, having been born at Hawley he was baptised at Yateley on the 1st of September 1822, however a 08155 Thomas Henry Goddard was baptised at Hawley, the son of Thomas and Emma on the 9th September 1862. So with the evidence given in the 1881 census when a Thomas H. Goddard a nephew of 07852 John is staying with the family of his uncle and aunt, in Lambeth, and who is aged 18, a *"Bottle Washer (Cellarman)"*, who had been born in Yateley, then a reasonable assumption, on this evidence, is that 07845 Thomas did marry this 08154 Emma and that the Thomas H. in Lambeth is their son.

07846 William was *"of Hawley"* according to the record of his baptism at Yateley on the 2nd November1823. He was an agricultural labourer and married to 07847 Sarah, maiden name unknown, but *"of Hawley",* in Hawley at the time of the 1881 census. Only three children are known from this marriage, 07983 Anne baptised at Cove on the 4th May 1845,

11 www.cwgc.org

but she is thought to have died young as there was a later child is also named 07986 Anne. 07984 Daniel was baptised on the 2nd November 1852 at Hawley.

07984 Daniel was an agricultural labourer and he was married to a 07985 Sarah, maiden name presently unknown, from Reading in about 1877. At the time of the 1881 census they are at Mere Farm Cove with 3 children, but by 1891 they had moved to Darby Green Farm Yateley with 6 of their then 8 children, with one more living as a lodger in a house nearby. In 1901, 07846 William and 07847 Sarah were living in Frimley with three more children, the last having been born in Yateley in 1898, making a total of 11 children that are known from this marriage.

07986 Anne was born at Hawley and baptised at Cove on the 28th November 1858, according to the IGI. In 1881 there are two possible entries for her in the census returns, she was working as a domestic servant, either as a housemaid in Hawley, or as a cook in Streatham Surrey, if indeed she was one of these *"Annie Goddard's"*.

07848 James was baptised at Yateley 17th December 1826 he was a general labourer, he married 07849 Emily the daughter of James and Hannah Thrift, nee Williams, who was also *"of Hawley"* when she was baptised at Yateley on the 26th March 1828. 10 children from their marriage have been recognised. However, in the 1881 census return, in addition to the two children who were still living in the family home at Hawley with 07848 James and 07849 Emily, 07784 Mary and 07785 Charles, there is a grand-daughter Alice Goddard aged 5 years and whose parents are not yet known.

07850 Henry was baptised on the 26th June 1831at Yateley, little has is known about him except that the census returns provide the information that in 1881 he was a game keeper at Monk Sherborne Hants., and that his wife 07851 Emma had been born at Thatcham Berks. Their only known child 07858 Emma had been born at Shinfield Berks. In 1901 07850 Henry is a retired gamekeeper living at Pamber Hants., with his unmarried daughter 07858 Emma, who was employed as a domestic houskeeper.

07852 John was baptised in Yateley on the 10th May 1835, he was agricultural labourer. He move to Wimbourne Dorset where he married 07853 and their 4 known children were born. By the 1881 census he was a labourer living in Lambeth London with his wife, 3 daughters, 07859 Eliza A., 07761 Elizabeth M., 07862 Emma L., together with son 07860 Fred, and nephew 08155 Thomas Henry. None of this family have yet been identified in the 1901 census.

Nothing is known of 07854 Charles except for the record of his baptism at Yateley on the 9th December 1838.

The information on 07741 William is very disjointed and much is at present hearsay, with no positive evidence available from the census returns except that he is aged 2 years at Glovers Farm in Yateley with his parents and younger sister Emily for the 1851 census. The story is that William was probably born at Hawley in about 1848, he joined the Royal Artillery and was stationed in Malta[12] during the 1870's. After returning home he worked as an attendant at the Broadmoor mental hospital at Crowthorne Berks., during the 1880's and married 07842 Elizabeth Hudson, they are reported to have had 3 children, 07743 Elizabeth Emily Hudson Goddard, 07744 William Charles Goddard and 07745 Eleanor Melitia Goddard. 07842 Elizabeth, nee Hudson, is said to have died in 1905 and 07741 William in 1926, Although it is probably that 07743 Elizabeth Emily born at Crowthorne and 07744 William Charles aged 12, are in the 1901 census returns there is no sign of their mother 07842 Elizabeth, nee Hudson, or sister 07745 Eleanor Melitia so far.

We only know that 08149 Emily was born in about December 1850 because she is aged 3 months at the time of the 1851 census, taken on the 30th March of that year. She married 08150 Thomas Williams a general labourer, at Cove on the 10th February 1872. They had at the time of the 1881 census 3 children Jane, William and Henry all born in Cove.

08142 Elizabeth Emily was born in about 1852 and was buried, aged 8 on the 7th October1860 at Yateley.

Very little information has been found for the rest of this generation of children, all were *"of Hawley"* at their baptism, 07855 Helen was baptised at Cove on the 30th June 1856, 07856 Jane is an unemployed domestic servant staying with her sister 08149 Emily's family for the 1881 census, she had been baptised at Cove on the 30th May 1858. Both 07951 James baptised on the 29th June 1862 and 07952 Anne on the 31st May 1863 are only known from the IGI record of their baptisms at Hawley. In 1881 07784 Mary was an unemployed domestic servant living at home Hill Corner Hawley she had been baptised on the 22nd March 1866, also there was 07785 Charles he had been baptised, again at Hawley, on the 27th June 1869. In the 1901 census it appears that it is this Charles Goddard who is a waiter in Frimley.

07984 Daniel was an agricultural labourer and he married to a 07985 Sarah, maiden name unknown at present, from Reading. Their first child 07987 Eliza was born at Hawley in about 1878. 07988 May Ann was born in 1879, 07989 Albert F. was born in 1880, he is a general labourer in Frimley in 1901 and 08144 George born in 1882 were all born at Cove. 08145Louisa, 08146 William 08147 Emma O., and 08148 Sarah were born at Hawley. The family were all living at Darby Green Farm at the time of the 1891 census, with the exception of Albert who was lodging locally. In 1901, 07846 William and 07847 Sarah were living in Frimley with three more children born at Yateley, 08156 Martha, 08157 Daniel and 08158 Frances. Nothing more is known about this branch, at present, except that 07846 William, following the family tradition, was a general labourer in Hawley in 1901.

12 www.maltafamilyhistory.com might be worth investigating or the Royal Artillery records in the National Archives at Kew for more information.

Sheet 10

Continuing the branch from Sheet 7 with 05456 Owen who was baptised at Finchampstead on the 25th August 1782, he was married 05457 Sarah Husband at Overton Hants., on the 7th January 1802. Owen was described at various times in Finchampstead parish registers as a *"Farmer"* or *"Shopkeeper"* sometimes *"Farmer and Shopkeeper"*. They are known to have had 9 children who were baptised at Finchampstead.

[It would be fairly safe to assume that the name of Owen came from the Hopkins side of the family and it is probably it was the Christian name of his mothers brother, i.e. his uncle, over the years there have been several Owen Hopkins in villages nearby to Finchampstead.]

Their first child was 05470 Timothy he was baptised on the 19th May 1805 and spent all his life in Finchampstead where he also married and was buried. He married 07886 Mary Grove on the 12th April 1823, both parties were apparently under 21 as there is a notice attached to their marriage registration which says *"with permission of parents",* this is probably because their first child was looming large on the horizon! They are known to have had 5 children but as these are intermittent this may indicate there are more in this family to be found. Three children were baptised at Finchampstead and two at nearby Easthampstead. Timothy was buried on the 1st October 1871.

05471 William was baptised on the 30th November 1806, he followed his father and became a farmer. He married twice, to 08077 Caroline Munday in about 1827, they had one child and then William married 08078 Hannah Lane in about 1837 and they then had 6 children. This branch is continued on Sheet 15.

05472 George Owen was baptised on the 20th November 1808 but further than that little other information has emerged. Finchampstead parish registers state that he was a farmer at the baptism of his only 2 known children by his wife 05473 Ann, surname unknown, 07911 Charles who was buried on the 6th August 1833, aged 3 years and 07891 George Owen who was baptised on the 12th October 1834. None of this family have been found in the 1881 census.

Apart from the record of their baptisms at Finchampstead nothing further is known about 07888 Henry baptised on the 21st July 1811, 05474 Elizabeth baptised on the 6th June 1813, or 05475 baptised on the 17th December 1815.

05476 Owen who was born on the 6th April 1819, baptised 11th July 1719 at Finchampstead, was buried just before his 20th birthday, at Easthampstead, on the 27th February 1839.

05477 Harriet was baptised 4th January 1821 and married at Finchampstead on the 16th October 1845 to 07944 Henry Seymour who had also been baptised at Finchampstead on the 17th March 1816. In the parish register entry for the marriage Harriet's father, 05456 Owen, is described as a *"timber merchant"*, while Henry Seymour is shown as being employed as a *"collar maker"*, that would be a leather worker who specialised in the making of the collar part of a harness for a horse.

05478 Charles was baptised on the 8th September 1822 but was buried only 10 weeks later on the 22nd October also at Finchampstead.

07889 John was the first child of 05470 Timothy and 07886 Mary Goddard, nee Grove, he was baptised on the 20th July 1823 at Finchampstead, as was 07890 Charles, on the 19th September 1824, but nothing further is known about either of them.

05483 Anne [out of date order on the tree for the convenience of the presentation], was baptised at Finchampstead on the 9th April 1826. She married 05482 George the son of 05459 Jeremiah and 05460 Mary Goddard, nee Hopkins. Their branch is shown on Sheet 12. 05483 Anne and 05482 George are known to have had 11 children all of whom were baptised at Finchampstead where their father worked as a carpenter initially, but by the record in the 1881 census for Finchampstead he was a *"Blacksmith & Builder Employing 3 Men 1 Boy"*, living with wife, 05483 Anne and the 3 youngest children.

After a gap of 6 years, which means that there may be other children still to be found, before 07932 Henry was baptised on the 11th March 1832 at Easthampstead he married 08159 Elizabeth, maiden name unknown at present. Their branch is continued on Sheet 11.

[It should be noted that there is an Arthur Goddard, born in Easthampstead in 1828, who had married a Harriett, probably Harriet Giles of Yateley and who was working as a harness maker in Sandhurst in 1881 with a family of their 6 children. This Arthur could well be another one of the sons of 05470 Timothy and 07886 Mary Goddard, nee Grove.]

07933 William was also baptised at Easthampstead, on the 23rd March 1834, but nothing else is known about him at present.

05485 Mary Anne was the first child of 05482 George and 5483 Anne, nee Goddard, and like the rest of this family she was born at Finchampstead. 05485 Mary Anne married 07892 James Loader a gamekeeper who had been born in Finchampstead in about 1841. At the 1881 census they are in Wokingham with their 7 children.

05486 Owen, married 05487 Susan Perry at Finchampstead on the 11th April 1866, according to the 1881 and 1901 census returns, she had been born at Blackafield or Blackfield (too small a hamlet for the modern Ordinance Survey Gazeteer), in Bedfordshire. In 1881 Owen was a cabinet maker and Susan a *"Certificated Schoolmistress".* After the birth of 07897 Edith, possibly their first child, in Finchampstead they moved to Reepham Norfolk, where 05497 Richard and 07899 Gertrude were born, for the 1881 census the family were at Hackford in Aylsham Norfolk. It is recorded in the 1901 census that Owen and Susan were in Hackford, adjacent to Reepham Norfolk where Owen was then a florist.

No positive dates or checkable references have been given for 05488 Alice, but no reason to doubt her existence either.

05489 Catherine was baptised on the 8th February 1852 she married a bricklayer, Walter Woolford, also of Finchampstead, they apparently had had no children by the time of the 1881 census.

05490 Walter was a carpenter he married Lydia Hawkins, also of Finchampstead and the daughter of James Hawkins, a bricklayer. At the time of the 1881 census they had 3 children, 07899 Annie A, was born in Finchampstead, 07900 Albert George, aged 2 and Walter E., born in about August 1880, both sons were born at Dorking Surrey, but the family were back in Finchampstead at the end of March 1881 for the census. Noticeably, none of this family have been identified in the 1901 census.

05491 Arthur, like his younger brothers, was also a carpenter, he married 07895 Catherine (Kate), maiden name unknown, of Wokingham. At the time of the 1881 census they had 3 children, 07902 Owen he had been born at Eversley and was sub post-master at Finchampstead at the time of the 1901 census, 07903 Ada born at Aldershot, and 07904 Adelaide born at Minley about October 1880. Neither of these last two girls or their mother 07895 Catherine, have been found in the 1901 census yet. 05491 Arthur, was buried on the 9th June 1884 at Finchampstead but was said to be *"of Fleet"* in the burial register.

05492 Scott was baptised on the 31st May 1857 in Finchampstead, but for the 1881 census he is a butler to a household in Hampstead London, with his wife 07896 Lucy as their cook, she is also from Finchampstead. They are both *"aged 27"* in 1881, so one might suspect that a more mature couple were required for this position than the real ages of Scott and Lucy would infer, hence the enhanced ages given. By 1901 Scott is a carpenter in Islington, but Lucy is still a cook, but in Finchampstead and now both are apparently mature enough to give their correct ages to the census enumerator. But what had happened to their marriage?

05493 Selina is found as a domestic nurse in Great Marlow Buckinghamshire at the time of the 1881 census, but she has not been traced in the 1901 census.

05494 Rhoda and 05495 Anne Adell Goddard are both dressmakers and still living in the family home, as is 05496 Alfred George who may be the *"boy"* employed in his fathers building business in the 1881 census returns.

According to the 1901 census 05494 Rhoda was living in Wokingham at that time with her husband 08138 Adam Slyfield a bootmaker and two daughters Isobel and Gertrude. Adam said, in the 1901 census returns that he had been born in Wokingham in 1860, but he has not been found in the 1881 census.

The second child of 05486 Owen and 05487 Susan, 08497 Richard Owen Goddard was born after the family moved to Reepham Norfolk where he was baptised on the 27th October 1873. In 1901 he was employed as a private secretary and an estate accountant at Melton Constable in Norfolk, meanwhile, his wife to be, 05498 Ellen, the daughter of Thomas and Sarah Miller was a *"clerk and type writer",* she had been baptised in Fakenham on the 24th July 1877. Richard and Ellen were married on the 9th June 1903, they are known to have had 3 children. 05499 Richard Owen, who married 05500 Rose, maiden name unknown, they had 2 children, Patricia and Kenneth. 05501 Marguerite married 05502 Jack Balaam, they also had 2 children, Pamela and Peter. 05503 Melton was born at Melton Constable Norfolk, he married, firstly, 05504 Lulu Frances Hill Harrison at Felbrigg Norfolk, she had been born in Hobart Tasmania. After the death of 05504 Lulu in Leominster in 1944 Melton married 05505 Lyla Macpherson.

05503 Melton and 05504 Lulu had 3 children, the first was 05506 Owen David born in Kings Lynn, he married 05507 Isobel Monro in Malta, they had 2 children 05511 Pia and 05512 David. The other two children of 05503 Melton and 05504 Lulu were 05508 Donald, no further information, and then 05509 Geoffrey who married 05510 Penny Jarvis, they also had 2 children who were 05513 Alexander and 05514 Owen.

Sheet 11

The first small branch on this sheet is an extension from Sheet 7 and contains the branch from the only son of 05454 Mark and 05455 Sarah Goddard, nee Alexander who is known, at this time, to have married and produced a further generation. 05465 Charles was baptised at Finchampstead on the 9th July 1815, but he was married at St Giles Reading on the 8th August 1854 to 07905 Elizabeth, the daughter of William and Elizabeth Brown, nee Petty, who had been baptised at St Giles Reading on the 20th May 1827. In 1881 05465 Charles, who was employed as a sawyer, and 07905 Elizabeth who was a greengrocer, had had 5 children, all of whom were baptised in Reading. 07906 Charles Frederick was baptised on the 5th August 1855, he was working as a biscuit baker at both the 1881 and the 1901 census times. The

largest single employer in the town of Reading, from 1822 and for about 170 years, was the worlds largest biscuit manufacturer named Huntley & Palmer[13], employing some 5000 workers by 1900, and Charles Frederick, like several others of this family, would have worked for them.

07907 William is recorded as having been baptised on the 4th January 1857, but because another son was also named 07909 William 3 years later, it is likely that 07907 William died young and no later record of him has been found.

07908 Frances Ann was baptised on the 7th November 1858, it appears that in 1881 she was working as a ladies maid in a large household with 10 indoor servants at Broadwater Sussex. She has not been traced in the 1901 census returns.

07909 William Mark baptised on the 1st August 1860, in 1881, as Mark, he was living with the rest of the family who were in Reading and employed as a striker for a smith, i.e. he was the one with the hammer in a smithies shop. He has not been located in the 1901 census returns.

07910 Henry baptised on the 3rd November 1861 was living at home and employed as a general labourer in 1881, but the 1901 census shows him to be a *"licensed victualler"*.

This branch has been not been traced any further to date.

The next small branch on this sheet concerns the wives and children of 05451 Timothy who was the son of 04879 Nicholas and 05444 Patience Goddard, nee Hopkins from Sheet 7

05451 Timothy was baptised at Finchampstead on the 19th April 1778 he was an agricultural labourer and a shopkeeper in the various Finchampstead parish records. He married 07758, Mary, maiden name unknown at present, apparently in about 1806, but no record has been found and there is a child of theirs, 07759 Keziah, baptised on the 25th May 1806 at Finchampstead, but nothing more is known of the family for 15 years until 07780 Nimrod, named after his uncle, was baptised at Finchampstead, on the 23rd July 1820, closely followed by his burial on the 25th August 1820. Presumably his mother had also died around this time, because on the 19th January 1822 05451 Timothy apparently marries 07887 Lydia, at Finchampstead, the daughter of John and Elizabeth Sparville, baptised on the 26th June 1791. But was this the same Timothy? The children by the earlier marriage were both named after close members of his family however, names of the 7 children by the second marriage do not follow the same pattern, but until other information comes to hand the tree will continue on the assumption the marriage to Lydia Sparville was 05451 Timothy's second. 07887 Lydia was buried in the 28th December 1846 at Finchampstead.

07924 John was baptised at Finchampstead on the 6th July 1822, but in 1881 he is a market gardener living in Much Woolton Lancashire, this village, now known only as Woolton has been swallowed up into the suburbs of the metropolis of Liverpool. Living with him was his wife 07925 Mary, nee Hughes,together with his unmarried sister-in-law Ann Hughes, both had been born in Much Woolton, no children have been found from this marriage. In 1901 07924 John is listed as *"a retired Market Gardener"*.

Only the dates of their baptisms at Finchampstead are known for the rest of the family; none have been found in the 1881 census. 07926 Henry was baptised on the 27th June 1824, 07927 Sarah was baptised on the 21st May 1826. 07928 Timothy was baptised on the 3rd August 1828, 07929 William was baptised on the 23rd December 1832 07930, 1st June 1834 and what is possibly her twin sister 07931 Sarah was also baptised on the same day 1st June 1834.

A further extension from Sheet 7 is the family of 07749 James and 07915 Sarah Goddard, nee Oliver. 07749 James baptised on the 10th August 1800 at Finchampstead where he also married 07915 Sarah Oliver on the 10th July 1824. She had also been born in Finchampstead. Both 07749 James and 07915 Sarah died relatively young, Sarah was buried on the 13th November 1839, aged 40 according to the Finchampstead register and James, who had been a farmer, was also buried in Finchampstead on the 26th May 1848. They had had a family of at least 4 children who were all baptised at Finchampstead, but nothing further is known about them and none have been identified in the 1881 census. 07916 Edward Oliver Goddard was baptised on the 7th November 1824, 07917 George was baptised on the 13th August 1826, 07918 Mary was baptised on the 3rd August 1828 and then a gap of 7 years before 07919 Ann was baptised on the 14th June 1835.

[07917 George, baptised on the 13th August 1826, could cause quite a problem to the layout of the tree however, because of the close proximity of his birth to that of 05482 George baptised also at Finchampstead, on the 16th July 1826, just a month apart. 05482 George was the son of 05459 Jeremiah and 05460 Mary Goddard, nee Hopkins, see Sheet 12, who it is thought married 05483 Ann Goddard, Sheet 10. **But which George actually married Ann Goddard?** Did the other George marry a different Ann and should some of the children be attributed to parents other than those presently shown on the tree on Sheet 10 ?]

Back on firmer ground with the small branch extension from Sheet 10.

07932 Henry the son of 05470 Timothy was baptised at Easthampstead on the 11th March 1832 where he was later a carpenter and where he married 08159 Elizabeth, who had been born in Finchampstead in about 1831. The family are in

13 www.huntleyandpalmers.org.uk

Yateley for the 1871 census in Vigo Lane with their 3 children. 08160 Harriett was born about 1857 according to the census returns and she was a general domestic servant employed at a house in Hawley in 1881.

According to the 1881 census of the hamlet of Minley in Hawley, 08161 Georgina was married to 08162 James H. Neville, a cowman who had been born at Hazeley Heath Hants., and they had a 7 month old daughter Elizabeth. In the 1901 census they are living in Eversley.

08163 Augustus, like his sisters, was born in Yateley1869, and is in the family home for the 1871 census but he cannot be found in the 1881 census; but then neither can his parents. In the return for the 1901 census Augustus is in Crondall and employed as carpenter.

04875 John, the first son of 03172 John and 03193 Anne, nee Smither was baptised at Yateley on the 3rd August 1739, he married, firstly, 05313 Elizabeth Williams at Yateley on the 17th November 1865. 05313 Elizabeth, the daughter of John and Elizabeth Williams had been baptised on the 31st March 1734, also at Yateley.

(See Sheet 11): The 6 children of 04875 John and 05313 Elizabeth were all baptised at Yateley, 05314 Hannah on the 21st January 1766, 05315 Sarah on the 26th December 1767, 08168 Mary baptised on the7th October 1769, 08169 John baptised on the 13th September 1771, 08170 Elizabeth baptised on the 5th February 1774 and finally 08172 Ann baptised on the 21st October 1775.

05313 Elizabeth died, probably about 1775-6, but her burial has not yet been found.

08170 Elizabeth, baptised on the 5th February 1774, was married to 08171 James Searl at Yateley on the 31st October 1795

Sheet 12

This extends the tree from Sheet 7 and starts with 05459 Jeremiah who was the seventh and last son of 04879 Nicholas and 05444 Patience Goddard, nee Hopkins, who was baptised at Finchampstead on the 13th June 1789. 05459 Jeremiah, a carpenter, married a cousin 05460 Mary on the 4th November 1814. 05460 Mary was the daughter of William and Jean Hopkins, nee Marshall, and she had been baptised on the 15th September 1793. They are known to have had 5 children, all baptised at Finchampstead, before Mary died, she was buried on the 23rd September 1827. 05459 Jeremiah lived for nearly 50 years longer being buried on the 15th September 1874. All these family events where at Finchampstead.

05515 Nicholas was baptised on the 21st May 1815 his occupation was of a *"Licensed Hawker"*[14], he married 07912 Mary Ann, the 20 year old daughter of an attorney Samuel Boulton, on the 5th March 1842 at Finchampstead. only one child is known from this marriage, 07913 Jeremiah who was not baptised until the 31st December 1854, but as the 1881 census lists 2 Jeremiahs born within a few months of each other in 1854, both in Finchampstead, this baptism is likely to have been close to his birth date. But from the information in the census there is not enough information to decide whether, at that census date, 07913 Jeremiah is the *"Gen. Lab."* boarding in Wokingham, or the servant, a domestic groom, at the Wixenford Preparatory School at Eversley.

A second marriage has been found for 05515 Nicholas, on the 25th December 1866 at Finchampstead, where the register shows that both parties were widowed. Nicholas married 07940 Eliza Halfacre, but the marriage register does not make it clear as to whether this was her maiden name or that of her first husband. Nicholas and Elizabeth had at least one child, according to the 1881 census, 07941 George, who had been born at Eversley in 1870. 05515 Nicholas was buried at Finchampstead on the 17th February 1873. The 1881 census shows that Nicholas's widow, 07940 Eliza, is now a *"Licensed Hawker"* living in Eversley with their 11 year old son 07941 George.

05516 Jemina was baptised at Finchampstead on the 31st August 1817 and it has been said that she emigrated to Australia but no confirmatory data has been given. However, in the 1881 census there is a widow, Jemina Wheeler born in Finchampstead at about the right date, but Jemina is not an uncommon name, there are about 425 listed in the 1881 census for the county of Hampshire alone, so further information is required to confirm the emigration.

05479 Keziah was baptised on the 28th May 1819, she was married at Finchampstead on the 21st June 1840 to 07914 Thomas Woolford, a bricklayer born at Sherfield in 1820.

05480 Jessie was baptised on the 14th December 1823, his occupation is given in various registers as sawyer and as farm labourer. He married 05481 Mary, maiden name not known at present, of Sherfield Green, probably at Sherfield-on-Loddon church, near Basingstoke, in about 1854. They are known to have had at least 6 children, all of whom were baptised at Finchampstead.

05482 George was baptised on the 16th July 1826 and it is he who is thought to have married 05483 Ann Goddard (see Sheet 10 and notes), although there is at least one other contender for this honour.

07945 Jenny is only known from the Finchampstead baptismal record for the 31st December 1854.

14 Legally distinguished from a "pedlar" by having an animal to carry his wares around.

07938 Charles was baptised on the 5th October 1856 and married, also at Finchampstead, on the 8th March 1886 to 07939 Eliza Clara, the daughter of William and Sarah Westall, a dressmaker in Finchampstead in 1881, who had been baptised at Hungerford on the 1st of July 1857. At the time of the 1881 census 07938 Charles was a domestic groom, but at the time of the wedding he was a *"carman"*, (a local delivery driver), in Reading, where their 2 known children, 07942 William and 07943 Elizabeth, were born. In 1901 the family are at Sanderstead Surrey, near Croydon, where Charles was employed as an agricultural labourer in 1901.

07934 William was an agricultural labourer in Finchampstead in 1881 and a gardener in Reading in 1901.

07935 Albert was a domestic servant in 1901, while at the same time 07936 Mark is a gardener, 07937 Mary was at home, with most of her brothers, in Finchampstead for the 1881 census, but she has not been traced in the 1901 census.

Sheet 13

This sheet consists of 3 short branches which have all been extended from the main branch shown on Sheet 3.

The first sub-branch features the family of 07627 James, the son of 07610 James and 07611 Mary Goddard, nee Wells, a labourer who had been born on the 27th September and baptised on the 12th October 1805 at Yateley where he was also married on the 2nd September 1828, to 07953 Martha Giles who said she was born in Clewer, near Windsor, Berkshire. In 1881 they are living at Primrose Cottage Sandhurst, James is still a labourer at 74, Martha is a "laundress", as is her unmarried sister Annie Giles who is living with them, together with Elizabeth Watts, a general servant, so with three wages coming into the house even a labourer's household can afford a 20 year old servant.

The first of their 7 known children, all born in Hawley and baptised in Yateley, was 07719 Ann Sophia on the 20th December 1829, but nothing else is known about her and she has not been identified in the 1881 census.

07954 James was baptised on the 5th of August 1832 was he married to 07955 Elizabeth Jane Sewry on the 16th July 1862 at Frimley. 5 children from this marriage have been identified through records of their baptism at Yateley, they showed that they were all born at Hawley and that their father was classed as a labourer.

07954 James was baptised on the 5th August 1832, he married 07955 Elizabeth Jane Sewry at Frimley on the 16th July 1862. In the 1881 census return he is shown as a *"government porter",* so he presumably worked at one of the local military barracks. With him in Frimley at Park Road No 4 Banks Cottages is his wife and 4 of their 5 identified children.

07956 Jane was baptised on the 16th November 1834, but she has not been found in any later records unless she is the *"Jane Goddard aged 3 years of Hawley"* who was buried at Yateley on the 23rd June 1836, or perhaps even the Jane Goddard who had married Henry Seward at Frimley on the 5th March 1860

07957 Ellen who was baptised on the 10th November 1836 has not been identified in later records.

The only record found so far of the existence of 08139 George is his baptism at Yateley on the 28th April 1839.

08140 William John was baptised on the 26th March 1843. Tracing his life is more of a problem because in the 1881 census there are two possible candidates, the first is a William Goddard born in about 1843 in Hawley working as a servant at the Royal Military College. He is said to be married, but searches of the census have not found a spare wife, or family, in the neighbourhood. This William is found in the same employment in 1901 promoted to the post of valet. The second is a William Goddard born in about 1843 in Hawley, a widower in Frimley in 1881, working as a college servant and living with a son Charles aged 17, who had been born in London and a second son, Harry E., who had been born in York Town Surrey. Now which of these Williams, if either, is 08140 William John baptised on the 26th March 1843 at Yateley?

The Goddards married into the Siggery family in the Yateley area several times over the centuries, but the marriage of 07958 Frances Goddard is the last confirmed child of 07627 James and 07953 Martha, baptised on the 27th April 1845 at Cove, to 07959 Thomas Siggery, a potter, on the 7th February 1863 also at Cove, is the only one where the apparent lineage of at least one of the parties has been traced so far. However, there is a problem with the parents, "James and Martha Goddard", of 07958 Frances as she was the only one to be baptised at Cove and she says in the 1881 census return that she was born at Yateley. There are 3 more children tentatively added to the family of "James and Martha Goddard" who were baptised in Yateley, a 08197 Martha Elizabeth baptised on the 9th March 1845, (only 6 weeks before 07958 Frances), followed by a 08198 Emma Louisa on the 7th February 1847 and then a 08199 Lewis Goddard baptised on the 23rd July 1848. Perhaps, there were two "James and Martha Goddard" living within a few miles of each other. One should ask why several unexpected and less common names are introduced into this family, if indeed it is one family. None of these latter three have been located on the 1881 census.

Of the 5 children 07954 James and 07955 Elizabeth Jane Goddard, nee Sewry, only 07961 Elizabeth Jane, baptised on the 11th March 1865, appears to have died young although the record of her burial has not been found in the Yateley records. The other children are all found living with their parents at Frimley in 1881. 07960 Lydia Louisa was baptised on the 28th July 1863 at York Town, she is a *"sick nurse"* living at Frimley in 1901. 07962 Frederick Wallace Goddard was baptised on the 30th November 1866, he is listed in the 1881 census, but not found in that of 1901. 07963 Jessie,

(female this time), was baptised on the 30th January 1869, she is a dressmaker in Frimley in 1901. 07964 George Sewry Goddard who was baptised on the 4th August 1872 is also in the family home at the 1881 census. 07964 George Sewry Goddard later married 07965 Lucy Ware at Frimley, she had been baptised at Frimley on the 4th September 1870, they are still in Frimley in 1901 where George is a *"market gardener"*.

07962 Frederick Wallace Goddard married 08173 Ada(h) Rogers in Faversham Kent in 1902 they lived in Brighton Sussex where they had 5 children. The first 08174 Harold Frederick Sewrey Goddard was born in 1904 in Brighton, he married 08175 Annie Georgina Mason, born 1907, they had one child Donald Frederick James Goddard. Donald Frederick James Goddard married Deidre Robin Lewin, they are known to have had one child Victoria Ann.

08176 James born in 1909, nothing further is reported, excepting that he died in 1961.

08177 Gordon Gerald born in 1912 is said to have married 08178 Mavis but no information is available.

08179 Herbert Frank was born in Brighton in 1814, he married 08180 Patricia Evelyn Page and they had 2 children, Leslie Gillian Goddard, who married Christopher Miles, and Nigel Hugh Goddard.

The last child of this generation was Douglas Gilbert Goddard, born in 1917 he married Violet Meason and they had 2 children, Geraldine, born in Brighton she married Jose Louis Del Barco and they had 2 children, and Geoffrey who married Ruth.

The second short tree features the family of 07642 John who was a domestic gardener and the son of Thomas and 07625 Mary Goddard, nee Mason on Sheet 3 . This tree asks more questions than it answers, mainly because of the intermittent births of the children over a very long period and the first thought is that there should be more children. The information for this tree is derived from the 1881 census return for Barossa Lane Frimley, Surrey. None of the Goddards nor Avants on this tree have been found in searches of the 1901 census index.

07694 Mary was born in Frimley in about 1856 she had married someone named 07695 "Avant", Christian name unknown, but in 1881she is apparently back living in Frimley, with her daughter Mary A. Avant aged 4 who had been born in Lambeth, with her parents and her brothers and sisters.

07691 William is a general labourer in 1881, while 07692 John is a scholar and 07693 Harriet A. aged 2 years has not started school in March 1881.

The third tree in this group deals with the family of 07967 William who was baptised at Frimley on the 16th August 1846, the son of 07633 Richard and Caroline Goddard, nee Smith. He was an agricultural labourer working at Elstead, about 8 miles south of Frimley where he was married on the 10th November 1872 to 07968 Phoebe the daughter of William and Hannah Ellis, nee Roe, who had been baptised at Elstead on the 26th October 1845. The first 3 children were born at Elstead, but although their fourth child, 07974 Emily Louisa, was born at Elstead she was baptised at Putterham on the 25th November 1876. Putterham is some 2 miles to the north of Elstead and it is where the other 5 children were born and where the family is at the time of the 1901 census. This family has not been investigated any further.

Sheet 14

This extends the tree on Sheet 2 for 07766 William, who was the first child of 03201 Holland 03202 Mary, nee Calloway, born on the 5th May 1786, he was baptised at Yateley on the 9th June 1786. He married 07767 Lucy Hatch at Yateley on the 4th November 1815. All the children were *" of Hawley"* but they were baptised at Yateley.

07775 Ann was baptised on the 18th January 1818 and 07776 George on the 12th March 1820, but nothing further is known about either of them at present.

The only information found for 07777 William was the record of his baptism on the 17th March 1822, and the entry in the 1881 census that showed him as an agricultural labourer married to 07718 Eliza, who had been born at Hawley but whose maiden name or marriage date has not yet been found. The census gives us no indication of whether or not they had any children.

Only the baptism dates of 07778 Sarah, on the 23rd May 1824, and 07779 James, on the 17th December 1826, is known about these two children at present.

07781 Thomas was baptised on the 31st May 1829 he was an agricultural labourer who was married at Yateley on the 8th November 1851 08141 Hannah the daughter of John and Lucy Spreadborough who had been baptised on the 27th October 1822. Hannah was born in Hawley in 1827, according to the census returns, so a little " poetic licence" had been used on her census age! All their children were born in Hawley but some were baptised in Cove.

07782 Eliza was baptised on the 11th September 1831 but no further information has been found about her.

07783 Lucy was baptised on the 30th November 1834 and she may be the Lucy who is the wife of Thomas Watts a farmer in Hawley in the 1881 census.

The Goddard Association of Europe

Most of the 6 children of 07781 Thomas and 08141 Hannah happen to be in the family home at the time of the 1881 census. Their first daughter 07990 Harriet was there as a visitor with her husband 07791 Herbert Fennell, a man of private means, and their 10 month old son Bertie A. Fennell, none of these three have been found in the 1901 census. 07990 Harriet poses a problem as her baptism at Yateley has not been found, unless she was the Harriett Goddard baptised on the 30th July 1848, some 3 years before her parents married, although her age given in the 1881 census is for her birth to have been after her parents married. The Yateley parish records should be checked to correct this anomaly.

07992 Thomas was baptised at Cove, according to the IGI, on the 29th May 1853 although in the 1881 census returns he said he had been born at Hawley. He was an agricultural labourer at his home in Cove for the 1881 census with his wife 07993 Elizabeth, born in Hawley, but no maiden name has been found yet, and their 2 year old son 07998 Thomas. In 1901 father, 07992 Thomas, is a *"general labourer"* in Cove while his son, 07998 Thomas, appears to be a sapper in the army at Frimley.

07994 Frederick was baptised at Hawley on the 29th June 1856 is found in both the 1881 and 1901 census as an agricultural labourer in Hawley. But 07995 Joe, baptised at Cove on the 28th August 1859 and living in the family home in West Road Hawley and working as an agricultural labourer in 1881, has not been found in the 1901 census.

07996 Ellen was baptised at Cove on the 27th October 1861, all we know at present is that at the 1881 census she was a visitor at a house in Reigate.

07997 Edward was also baptised at Cove, on the 26th June 1864, although in the census he said that he was born at Hawley. In both the 1881 and 1901 census he is a domestic gardener in Hawley.

Sheet 15

Continuing the branch from Sheet 10 to pick up with 05471 William the son of 05456 Owen and Sarah Goddard, nee Husband, was baptised at Finchampstead on the 30th November 1806. He was known as a farmer but he probably had also taken over his fathers timber business at some time.

05471 William married 08077 Caroline Munday, it is said in about 1827 at Warfield Berks, and their only known son 08080 Thomas William was born about 1830 at Warfield, he definitely was a farmer working 120 acres at Hill Farm Owslebury, near Winchester, Hampshire at the time of the 1881 census. 08077 Caroline's death has not been found, but in about 1837 05471 William married again, this time to 08078 Hannah, the daughter of John and Elizabeth Lane, nee Shefford, who had been baptised at Wokingham on the 3rd July 1812. They are known to have had 6 children, Hannah outlived her husband and is found as a *"timber dealers widow"* lodging in Wokingham in 1881.

08080 Thomas William, like his father was a farmer and married twice, firstly to 08079 Sophia, maiden name unknown at present, they are known to have had 9 children all were baptised at Odiham Hants. 08079 Sophia appears to have died about 1875 in Odiham.

The first child of 08080 Thomas William and 08079 Sophia, 08082 Sydney was baptised on the 21st November 1856 and in 1881 he is living on the family farm at Owslebury, a small hamlet without a church near Winchester, with most of the family, including his step-mother 08081 Fanny who was the same age as himself. The census return for 1901 shows him at Grove Berks., on the Wantage to Oxford road where he is a *"Dairyman and Milk Seller"* and apparently unmarried.

08083 Caroline Sophia was baptised on the 17th February 1858 on the 3rd of April 1881, census day, she was a visitor The Lamb Hotel in Hartley Whitney, but at time of the census of 1901 she is probably the Caroline Parsons living in Aldershot, the wife of a John Parsons from Wantage.

The next 3 children are only known from their entries in the baptismal register as they do not appear in the 1881 census, but no check of Odiham or Winchester burial records seems to have been made for their entries. 08084 William was baptised on the 16th March 1860, 08085 Francis was baptised on the 5th November 1862 and 08086 Maude Eliza was baptised on the 20th January 1864.

08087 Kate Mary was baptised on the 15th November 1865, in 1881 she is found in the census return living at Odiham, as an apprentice dressmaker. Kate has not been identified in the 1901 census as there were about 10 Kates born in Odiham about the same time and most seem to have changed surnames through marriage in the intervening years

This is also a similar position regarding the whereabouts of 08088 Clara Anne in 1901 although there were fewer girls named Clara born in Odiham around the date of her baptism on the 4th October 1868, there are still 5 or 6, and her unique identity is lost amongst them until a marriage can be found for her. Clara is living at the family farm at the time of the 1881 census.

08089 Joseph was baptised on the 11th November 1870 and at home with the family in 1881. In 1901 he was a butcher at Wokingham Berks., according to the census returns.

Although 08090 Arthur who was born in about 1874 is with the rest of the family for the 1881 census he has not been identified in the 1901, however there are several possible entries but none with the correct date or place of birth, if the 1881 record is correct.

After the death of 08079 Sophia, 08080 Thomas William married again. probably in Odiham, in about 1877, and presumably after his new wife 08081 Fanny, surname unknown, had passed her 21st birthday. Fanny was born in Odiham according to the census returns. There were a further 4 children after this marriage, all born in Winchester

The first of these 08091 Fanny who was born in about 1878 is in the family home on the farm at Owslebury for the census in 1881, however, in 1901 08091 Fanny is working in a Chelsea bakers shop in London.

The next two children 08092 Ada V. D. aged 2 years and Thomas W. A. are found in the 1881 census, but have not been found in the 1901, and by then their father had died.

In 1901 the now widowed 08081 Fanny is the *"Head Cook at Guys Hospital"* in London, however she was in Odiham, probably visiting her family, at the time of this census with her youngest son 08164 Horace who had been born at Winchester in about 1888.

Returning to 05471 William and the family of 6 children by his second wife 08078 Hannah, nee Lane, all of whom were born at Waltham St. Lawrence which is near Maidenhead in Berkshire.

08094 Lewis Lane Goddard was the only son he was born about 1838 horse breaker and trader. He was married at St. James church Westminster London on the 2nd May 1864 to 08095 Naomi, the daughter of Nimrod and Naomi Allaway, nee Wilder of Wokingham. They are said to have had 5 children.

All that is certain about the life of 08096 Louisa, is that aged 38 she was, unmarried, and with her brother 08094 Lewis and his family at the time of the 1881 census, but she has not been found in the 1901 census.

None of the other daughters of 05471 William and 08078 Hannah, 08097 Letitia, 08098 Laura, 08099 Lydia, or 08100 Susan have been found in the returns of the 1881 census.

08103 Ernest

08101 Lewis William is reported to have been baptised at Odiham on the 20th January 1864, this may account for the marriage of his parents, 4 months later being in London. 08101 Lewis William was buried *"aged 3 of Odiham"*, at Finchampstead on the 26th April 1866.

08102 Harvey was born at Odiham but according to the 1901census index, which is in apparent error, says *"Andover"* but he is then in Islington working as a company secretary. No family has been identified in this census, but it is reported that he did marry and they had at least one child.

08103 Ernest who, according to the 1881 census when he is found with his family at *"Crowthorne or Starvale Farm"*, Wokingham, Berk. He is reported to have married and had 3 sons between 1889 and 1894 but the name of his wife has not been found and neither has he, nor the sons 08107 Sydney, 08108 Albert, or 08109 Ernest Frank been found in the 1901 census. However, it is likely those sons who were alive would have been living in London at this time.

08109 Ernest Frank was killed in the first World War and is named on a memorial plaque in Nunhead Cemetery London. The war graves are scattered throughout the cemetery and could not be marked individually; the casualties buried in these graves are therefore commemorated by name on a screen wall inside the main entrance gate to the cemetery. The following information is provided by the courtesy of the Commonwealth War Graves Commission.

Name:	GODDARD, ERNEST FRANK
Initials:	E F
Nationality:	United Kingdom
Rank:	Driver
Regiment:	Royal Field Artillery
Unit Text:	2nd Div. Ammunition Col.
Age:	18
Date of Death:	10/02/1917
Service No:	97600
Additional information:	Son of Ernest and Ada Goddard, of 109, Surrey Gardens Estate, Manor Place, Walworth, London. Native of Brixton, London.
Casualty Type:	Commonwealth War Dead
Grave/Memorial Reference:	Screen Wall Panels 1 to 6
Cemetery:	NUNHEAD (ALL SAINTS) CEMETERY London

08103 Ernest was married, for a second time, to 08104 Ada Smoker, soon after the 1901 census at St Saviours Southwark London. Ada, born in Peckham she was the daughter of Joseph and Laura Smoker who were greengrocers in Clapham in 1881. Ada was a domestic cook in Chiswick in 1901 just before her marriage. 5 children are known from this marriage. Strangely, the marriage certificate for Ernest and Ada is said to show Ernest as a *"Bachelor"*.

08105 Amy Louise was born at Aldershot in about 1872, but apart from the 1881 census return, when she was with the rest of her family in Wokingham, no other information is available at present.

08106 Sydney was also born at Aldershot and was at the Wokingham home in 1881, but for the1901 census he was a grocers assistant in Henley on Thames Oxon., and apparently not married.

The unusually named 08110 Dorcas, (Biblical name in the book of Acts), married 08111 Harold Stokes, they are thought to have had 5 children.

08112 Lewis Lane Goddard married 08113 Beatrice Evans at Christ Church Rotherhythe London, they had 4 children, 08119 Alfred, 01820 Joyce Maude, 08122 Ernest Victor and 08124 Iris Ivy.

08114 Ivy Louisa did not marry.

08115 Elsie May married 08116 Robert Wheelans at Southwark, they are known to have had 2 children and after Elsie was widowed the family emigrated to Australia.

08117 Ronald married Ivy Cox at Southwark and they had 2 children, 08126 Ronald and 08127 Patricia.

08119 Alfred the first son of 08112 Lewis and 08113 Beatrice was only about 2 years old when he died.

01820 Joyce Maude was born in Bermondsey and married at the Sacred Heart Church Camberwell London to Joseph O'Hagan they had 5 children, Iris, John Lewis, Anne Rose, Bryon, and Karen Joyce.

08122 Ernest Victor was born in Bermondsey and married at St Pauls Church Herne Hill Road London to 08123 Kathleen Charlotte Rowson, there were 3 children.

08124 Iris Ivy married 08125 John Trunley at St Giles Church Camberwell, there were two children, Iris Ann and Lynn, both were born at Camberwell.

08128 Susan Kathleen who married 08129 Christopher John Moreton and there were 2 children.

08130 Janet Elizabeth married twice, firstly 08131 David Snelling and later 08132 Richard Walsham, but there were no children.

08133 Christopher Ernest William Goddard married 08134 Susan Snelling and there were 2 children.
